Weekly update on Virtual Lifetime Electronic Record (VLER)

The Department of Defense (DoD) Healthcare Artifact and Image Management Solution (HAIMS), and the Department of Veterans Affairs (VA) Veterans Benefits Management System (VBMS) Program Management Office (PMO) reaffirmed their commitment to implement the Virtual Lifetime Electronic Record (VLER) Data Access Services (DAS) this year.

- VA Compensation and Pension Records Interchange (CAPRI) will use VLER DAS to submit Disability Benefits Questionnaire(DBQ) results
- DoD HAIMS will use VLER DAS to deliver Service Treatment Records (STRs) to VA for storage in the Service member's Longitudinal Health Record.
- VBMS will use VLER DAS to retrieve the STRs for use in the claims adjudication process
