

On behalf of Mr. Joe Paiva, Executive Director, VLER, the following information is provided as input to the weekly Cabinet Report:

23 - 27 July 2012

Virtual Lifetime Electronic Record

Virtual Lifetime Electronic Record (VLER) and Architecture, Strategy & Design (ASD) jointly developed an Information Exchange Matrix, which was submitted to Mr. Eric Shinseki, Secretary of Veterans Affairs (VA), for his testimony on July 26, 2012, to the joint hearing between the House Veterans Affairs Committee and House Armed Services Committee. This Matrix provides a breakdown of health and benefits information shared between the Department of Defense (DoD) and the VA. Specifically, this document provides VA visibility on: the information shared between VA and DoD; the systems, person or agency sharing the information; how the information is shared (paper vs. electronic); and the status of the exchange (existing vs. planned).
