

On behalf of Mr. Joe Paiva, Executive Director, VLER, the following information is provided as input to the weekly Cabinet Report:

5 November- 9 November 2012
Virtual Lifetime Electronic Record

During the week of November 5-9, 2012, Virtual Lifetime Electronic Record (VLER) is expected to begin collecting requirements in support of the Interagency Comprehensive Plan (CP). The Department of Defense (DoD)/Department of Veterans Affairs (VA) Warrior Care and Coordination (WC2) Task Force produced a final report to the DoD/VA Joint Executive Committee (JEC) with recommendations for interagency improvements to better synchronize the multiple approaches to care coordination and the overall program management of the Wounded Warrior services. The Interagency CP will be the single plan, employed by the lead coordinator and case management/care coordination teams, to support and manage activities across the full continuum of clinical and non-clinical services provided by DoD, VA, and other partners. The Interagency CP will be Service member/Veteran-centric and aligned to their goals for recovery, rehabilitation, and transition.
