ID	Test Observation Title	Description	DBQ Form	Status	Classification
247	Date Format - Test Script Errors	<p>Thyroid/Parathyroid: In the script items 10A, 10C, and 10D all use the MM/YY format for the Date. This is incorrect. This error is due to the fact that the electronic copy of the PDF will only take the MM/YY format. The electronic PDF was completed and attached to the scripts so that the testers could easily compare the Actual PDF (from the system) with the Expected.</p> <p>Central Nervous System: Patient Date of Birth, 3J, 5C, Hepatitis Cirrhosis & Other Liver: 1B</p>	General	Closed	Script Issue
248	Answer to Item 7A -Total number of unstable or painful scar, is NOT on PDF	<p>In item 7A, subordinate question "Total number of unstable or painful scars". The user selected and saved "0" in the system, but the checkbox for "0" is not checked on the PDF</p>	Thyroid, Parathyroid - VA Form 21-0960E-3	Closed	Defect

ID	Test Observation Title	Description	DBQ Form	Status	Classification
249	Subordinate options for 7C should not be displayed.	<p>In item 7C. HAS THE VETERAN COMPLETED TREATMENT OR IS THE VETERAN CURRENTLY UNDERGOING TREATMENT FOR A BENIGN OR MALIGNANT NEOPLASM OR METASTASES?, the user answered "NO, WATCHFUL WAITING", and the subordinate options for IF YES, INDICATE TYPE OF TREATMENT THE VETERAN IS CURRENTLY UNDERGOING OR HAS COMPLETED, were still displayed. These options (Treatment completed, currently in watchful waiting status, Surgery, etc.) should not be displayed.</p>	Intestinal Conditions - VA form 21-0960G-3	Open	Defect
250	Intestinal Surgery DBQ is NOT loaded to the claim	<p>The user (Private Clinician user role) answered Yes to item 2C. HAS THE VETERAN HAD SURGICAL TREATMENT FOR AN INTESTINAL CONDITION?, but the Intestinal Surgery DBQ was NOT loaded to the claim. The question "Do you want to load the Intestinal Surgery (Bowel Resection, Colostomy, Ileostomy) DBQ?" appears in the system, but not in the script.</p>	Intestinal Conditions - VA form 21-0960G-3	Closed	Defect

ID	Test Observation Title	Description	DBQ Form	Status	Classification
251	Item 1A - "No" is checked on the PDF instead of "Yes"	In the system the user answered "Yes" to Item 1A. DOES THE VETERAN NOW HAVE OR HAS HE/SHE EVER BEEN DIAGNOSED WITH AN INTESTINAL CONDITION?, but "No" is marked on the PDF.	Intestinal Conditions - VA form 21-0960G-3	Closed	Defect
252	Script Error- Step missing between 40 and 41 to save and move to the Physical Module	After the user answers item 7E, the script instructs the user to move on to question 8A, but 8A is in a different module.	Intestinal Conditions - VA form 21-0960G-3	Closed	Script Issue
253	Perceived script errors due to unknown design	For some "Yes/No" questions where the script instructs the user to choose the options that apply, the system may also require the user to respond "NO" to the items that do not apply. Since the design of the system is unknown (during script development), the scripts cannot indicate which questions will require a "NO" response to items that do not apply.	General	Closed	Script Issue

ID	Test Observation Title	Description	DBQ Form	Status	Classification
254	Item 1B, Intestinal Neoplasm is marked on the PDF but not in the system	In Item 1B, the user answers "NO" to "INTESTINAL NEOPLASM" but this box is checked on the PDF .	Intestinal Conditions - VA form 21-0960G-3	Closed	Defect
255	Item 10C All PFTs are required, and they should be	The requirements (nor test script) requires the user to enter ALL PULMONARY FUNCTION TESTS (PFTs), but the system DOES require all 3 (FEV-1, FEV-1/FVC, and FVC). The PFTs should be completely filled out in this case to ensure we have adequate information to rate this condition.	Thyroid, Parathyroid - VA Form 21-0960E-3	Change Request	Change Request
256	Script Clarification - "DBQ Link" is confusing to the testers	All Scripts - After saving the claim, the script instructs the user to click the "DBQ Link" to get to the DBQ Listing page. Many testers are searching for this link in the breadcrumbs, however it appears as a module under "Claim" on the left.	General	Closed	Script Issue
257	Item 4C - When "All Bilaterally" is chosen "Both" should be checked for all Tender Points	In item 4C, TENDER POINTS (trigger points) FOR PAIN (check all that apply), the user selected "All Bilaterally" and expects that the "BOTH" checkbox be checked for each Tender Point.	Fibromyalgia - VA Form 21-0960C-7	Change Request	Change Request

ID	Test Observation Title	Description	DBQ Form	Status	Classification
258	Item 4I - Not displayed correctly on screen	In item 4I. DOES THE VETERAN CURRENTLY HAVE SYMPTOMS DUE TO PRESSURE ON ADJACENT ORGANS SUCH AS THE TRACHEA, LARYNX, OR ESOPHAGUS ATTRIBUTABLE TO A THYROID CONDITION?, the system removes the text in parenthesis from the "Esophogus" option, and displays the text in the wrong place. This is confusing to the user. See attached file.	Thyroid, Parathyroid - VA Form 21-0960E-3	Closed	Defect
259	Item 7A PDF - The "0" checkbox is shaded light blue, instead of marked with an "X"	In item 7A DOES THE VETERAN HAVE ANY SCARS OR OTHER DISFIGUREMENT OF THE NECK RELATED TO TREATMENT FOR ANY THYROID OR PARATHYROID CONDITION? , under "1.Total number of unstable or painful scars", the user selected and saved "0" in the system, but the "0" checkbox is shaded light blue, instead of marked with an "X" on the PDF.	Thyroid, Parathyroid - VA Form 21-0960E-3	Closed	Duplicate
260	Item 1C should not accept more than 255 characters	The user entered 8435 characters and spaces in Item 1C. IF THERE ARE ADDITIONAL DIAGNOSES THAT PERTAIN TO INTESTINAL CONDITIONS, LIST USING ABOVE FORMAT, and the system saved it. This field should only accept 255 characters	Intestinal Conditions - VA form 21-0960G-3	Closed	Could Not Reproduce

ID	Test Observation Title	Description	DBQ Form	Status	Classification
261	Item 11. Remarks accepts more than 4000 characters	The user entered 8440 characters and spaces and it saved it. The requirement state that this field should accept no more than 4000 characters. The user went back in and put in 3789 characters and spaces, and only 263 characters and spaces were seen.	Intestinal Conditions - VA form 21-0960G-3	Closed	Defect
262	Item 4B - "3" is not selected on the PDF	In item 4B, the user selected "3" for the Number of non-debilitating episodes in past12 months.However, this did not populate in the PDF document.	Skin Diseases - VA Form 21-0960F-2	Closed	Defect
263	Item 4A "For all checked conditions, describe" -- text is deleted from textbox upon Save	When the user enters text in item4. DOES THE VETERAN CURRENTLY HAVE ANY FINDINGS, SIGNS OR SYMPTOMS ATTRIBUTABLE TO FIBROMYALGIA?, under Findings, "For all checked conditions, describe", the text is deleted when the user saves the form. Therefore the text does not appear on the PDF. The text should not be deleted from this text box upon Save.	Fibromyalgia - VA Form 21-0960C-7	Open	Defect

ID	Test Observation Title	Description	DBQ Form	Status	Classification
264	Items 5A and 5B are not displayed in the order defined, and subordinates for 5B "Yes" are displayed when "NO" is selected	In the Physical Exam Module, 5B should be displayed before 5A, per the requirements. Also, when "No" is selected as the answer to 5B, the subordinate question for "If Yes", is displayed, and it should not be displayed.	Gallbladder and Pancreas Conditions - VA Form 21-0960G-2	Open	Defect
265	Items 5G and 5H are displayed incorrectly.	See attached file. The doctor has suggested the following: I believe the sequence of the questions should be revised. First a REQUIRED "yes" or "no" question should be asked. If the answer is "yes", then a free text box should follow to SPECIFY the condition, followed by a drop box to specify the severity of the condition. If the answer is "no", no other questions should be required. The same should be for question 5H. Please refer to the PDF so you can see the disparity in the answers.) The issue is that for G and H, "Other Manifestations/Complications (Specify)" is a dropdown list; and "If Other, select" is a text box. This should be the reverse.	Parkinson's Disease - VA Form 21-0960C-1	Open	Defect
266	3F. Tremors - Options made in system do not appear on PDF	In item 3F. TREMORS, the user answers "Yes" to Right Lower, but this box is NOT checked on the PDF. Also the user answers "No" to 3 G. MUSCLE RIGIDITY AND STIFFNESS, the system does not display the "Extremities Affected" choices, so the user cannot select them (which is correct), but the "Left Upper" extremity checkbox is checked on the PDF under 3 G.	Parkinson's Disease - VA Form 21-0960C-1	Open	Defect

ID	Test Observation Title	Description	DBQ Form	Status	Classification
267	HEPATITIS, CIRRHOSIS AND OTHER LIVER CONDITIONS has been shortened to just "Hepatitis"	In the system, the breadcrumbs and the Exam Type refer to the Hepatitis, Cirrhosis, and Other Liver Conditions DBQ as "Hepatitis". The full name should be displayed.	Hepatitis, Cirrhosis, and Other Liver Conditions - VA Form 21-0960G-5	Open	Defect
268	Non Public DBQ is loaded for a Private Clinician	When "CRANIAL NERVE VIII" is selected by a Private Clinician user role in item 3B, the system prompts the user to load the Hearing Loss & Tinnitus DBQ, which is a NOT a public DBQ. When the user answers Yes, and saves the form, the Hearing Loss & Tinnitus DBQ is loaded to the claim. When "CRANIAL NERVE VIII" is selected by a Private Clinician user role in item 3B, the system SHOULD display a warning message stating "This Disability Benefits Questionnaire is not required for this cranial nerve condition", and should NOT prompt and/or allow the user to load the Hearing Loss & Tinnitus DBQ.	Cranial Nerve Conditions - VA Form 21-0960C-6	Open	Defect

287	Item 3A - Text from PDF is not displayed	In item 3A. DOES THE VETERAN HAVE ANY MUSCLE WEAKNESS IN THE UPPER AND/OR LOWER EXTREMITIES?, the PDF displays the text "IF YES, REPORT UNDER STRENGTH TESTING IN SECTION IV, NEUROLOGIC EXAM." This text does NOT appear in the system no matter what the answer is to 3A.	Central Nervous System & Neuromuscular Diseases - VA Form 21-0960C-5	Closed	Defect
288	Item 4A, 5, and 6 - When "Yes" is selected for ALL Normal, all subordinates are hidden	In items 4A, 5, AND 6, when the user answers "YES" to ALL NORMAL, the system incorrectly hides all of the subordinate values, AND for item 6, it also hides the "Other sensory findings, if any" field. In the system, the user cannot tell if the "normal" values are selected for these items because they are hidden. The "Normal" values for 4A, 5, and 6 are NOT checked on the PDF, however the "ALL NORMAL" checkboxes are checked.	Peripheral Nerves Conditions - VA Form 21-0960C-10	Open	Defect
289	Erroneous text displayed for quotation marks on the Peripheral Nerves, Physical Exam page	Erroneous text is displayed for quotation marks on the Physical Exam page, prior to 11A. The system displays the following: Based on symptoms and findings from this exam, complete the following section to provide an estimation of the severity of the veteran's peripheral neuropathy. This summary provides useful information for VA purposes. NOTE: For VA purposes, the term "incomplete paralysis" indicates a degree of lost or impaired function substantially less than the description of complete paralysis that is given with each nerve. If the nerve is completely paralyzed, check the box for "complete paralysis." If the nerve is not completely paralyzed, check the box for "incomplete paralysis" and indicate severity. For VA purposes, when nerve impairment is wholly sensory, the evaluation should be mild, or at most, moderate. The PDF displays the following:	Peripheral Nerves Conditions - VA Form 21-0960C-10	Open	Defect

298	Upon Save, the system deletes information from items 5B and 5C	This item is related to defect ID 226. During a retest of this defect to ensure the the information from 5C was correctly displayed on the PDF (previous defect stated: In item 5C. I answered yes to symptomatic and "NO" is checked to the right.), the tester found that the information in 5C is deleted when the user clicks the Save button. Therefore, the PDF issue could not be tested, and the observation is being recorded as follows: In the Medical History module, when the user clicks the Save button, the system deletes the information from items 5B and 5C AND their corresponding subordinate items.	Artery & Vein Conditions - VA Form 21-0960A-2	Open	Defect
299	Parkinson's Disease DBQ requires a field when I select "No"	As a part of the Parkinson's Disease DBQ, when I select "No" for question 5D, URINARY PROBLEMS (Incontinence or urinary retention): it requires me to determine the next question, "If absorbent material required due to incontinence, specify pads/day: " If the Veteran is not incontinent then absorbent material is not required, how can I specify the pads/day. This second question should not be required. I am with a Private Clinician role.	Parkinson's Disease - VA Form 21-0960C-1	Closed	Duplicate
300	Can't Save a PDF version of the Parkinson's DBQ with the Data in it	I have taken the time to generate a PDF version of the Parkinson's DBQ. When I generate the PDF version of the DBQ, I am unable to save the DBQ to my hard drive with the data included. It wipes the data out. I have attached the error I receive from Adobe.	Parkinson's Disease - VA Form 21-0960C-1	Closed	Training Issue
301	When submitting a DBQ there is nothing in the Tracking Inbox give the user the status	When I submit any DBQ through the system, there is nothing in the Tracking Inbox that denotes that the DBQ has been submitted. Therefore the user goes back into the DBQ and submits it again and again, and again. There needs to be something that specifies that the DBQ has been submitted or prevents the user from modifying a submitted DBQ. There is not requirement specifying this how to do this therefore the VA needs to develop a requirement.	General	Change Request	Change Request
