User Story Number: US010.03

User Story Name: Update Existing Exam Result Status

Priority: High

ClearQuest Number: DAS_CR320

Author: Jeremy Brown/Business Analyst

Function Points:

Story Points:

Story: As a reviewer of Compensation and Pension (C&P) exam results, I want Virtual Lifetime Electronic Record (VLER) Data Access Services (DAS) to pass an updated C&P exam result status of an existing C&P exam, to Clinical Data Service (CDS) for storage in Health Data Repository (HDR) so that the current status is available in the Department of Veterans Affairs (VA) and the disability claims adjudication process can advance.

Revision History

Date	Version	Description	Author
11/14/2012	v0.01	Draft	Jeremy Brown
11/20/2012	v0.02	Analyst Review	Jeremy Brown

12/04/2012	v0.04	Peer Review - Approved	Jeremy Brown
12/04/2012	v0.05	Added no. 7 in the Conversation to have the "Date Modified" update date documented	Jeremy Brown
12/06/2012	v0.06	Testability – Yes	Jeremy Brown
12/07/2012	v0.07	Changed the user story number because we placed it underneath a new epic story (ES010)	Jeremy Brown
12/10/2012	v0.08	Technical writer review	Dan Zaudtke Nancy Burak
01/03/2013	v1.00	Formal review - Approved	William G. (Dusty) Jackson
01/03/2013	v1.00	Formal review – Approved	Steven Lee Green

Background

C&P exam results are the primary deliverable in the disability claims adjudication process. All parties involved have to agree on the possible status values of the exam result so that the producing and consuming applications can properly process the claims. The possible status values are:

- Pending–Under Review: Requires Veterans Health Administration (VHA) review prior to Veterans Benefits Administration (VBA) use.
- Completed: Ready for VBA to use.
- Rejected: Submission is insufficient; possibly needs further clarifications.

Figure 1 illustrates the process for creating and reviewing exam results. Exam results created by a VHA provider using Compensation and Pension Record Interchange (CAPRI), a VBA contracted provider using a proprietary system, or a treating clinician, VHA or private, using the Disability Benefits Questionnaire (DBQ) Forms Service have a status of 'Completed' when they are submitted. Exam results created by VHA contracted providers using a proprietary system have a status of 'Pending-Under Review' when they are submitted. A VHA provider may review an exam result with a status of 'Pending-Under Review' and change its status to either 'Completed' or 'Rejected'.

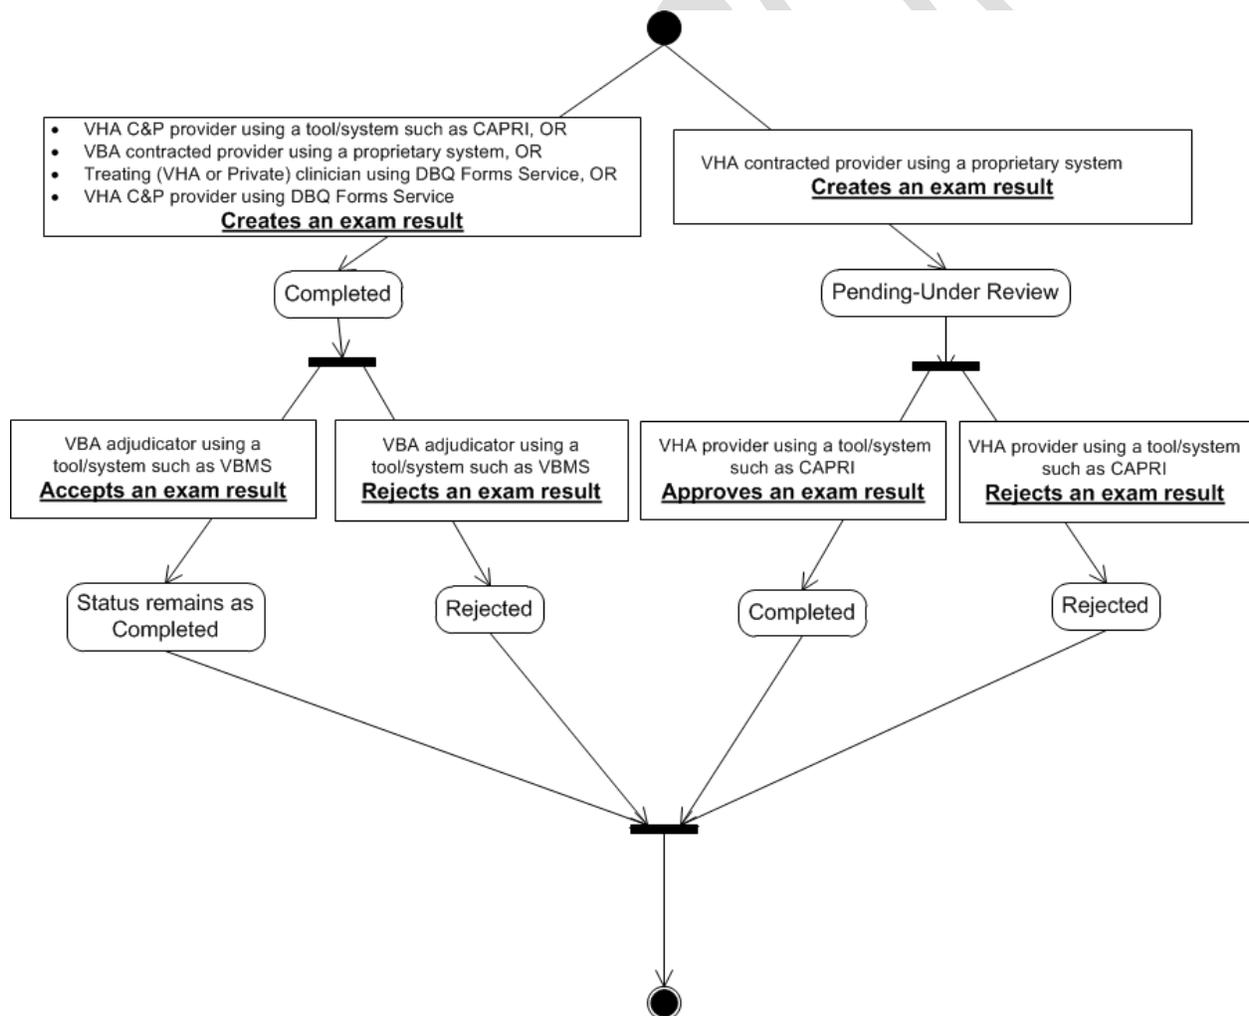

Figure 1: C&P Exam Review Flow and Status Assignment

Conversation

1. VLER DAS receives a C&P exam result, including status, from a producing application, e.g. CAPRI.
2. VLER DAS sends the C&P exam result, including status, to the CDS for storage in the HDR.
3. The Reviewer retrieves the C&P exam result from CDS and updates the exam result status using Veterans Benefits Management System (VBMS) (or similar application).
4. The Reviewer sends the updated C&P exam result status to VLER DAS using VBMS (or similar application).
5. VLER DAS receives an update to a C&P exam result status from a Reviewer using VBMS (or similar application).
6. VLER DAS sends the updated exam result status to the CDS for storage in the HDR.
7. HDR records the Date Status Modified in the database.

Listing of Acceptance Criteria

Requirement ID	Description
US010.03.01	VLER DAS sends an updated C&P exam result status to CDS for storage in the HDR.

Assumption

1. The producing application is responsible for applying any business rules that determine the appropriate status value for an exam result.
2. The producing application is responsible for applying appropriate data formatting for VLER DAS processing.
