Get an Upgraded Account with In-Person Authentication (IPA)

To get the most out of My HealthVet, Veterans are urged to visit their local VA health care facility to get an upgraded account, known as In-Person Authentication (IPA). Before VA patients can refill their VA medications by name, access their VA Wellness Reminders, and participate in the future features of My HealthVet, Veterans need to complete the IPA process (takes approximately 10 minutes) as a security measure. The purpose of the one-time IPA process is to verify the Veteran's identity, in-person. This complies with VA policy and protects Veterans' identities. It's a simple process that will enhance a Veteran's use of My HealthVet and allow access to other features as they become available.
