

VA RETAIL IMMUNIZATION CARE COORDINATION PROGRAM

MORE OPTIONS, EASIER ACCESS, SEAMLESS RECORDS

The U.S. Department of Veterans Affairs (VA) is partnering with Walgreens to offer greater choices of time and location for VA enrolled patients to get their seasonal flu shot.

JUST THE FACTS:

- VA enrolled patients can get their seasonal flu shot at any VA health care facility or Walgreens.¹
- To get a seasonal flu shot at Walgreens, VA enrolled patients must tell their pharmacist that they receive care at a VA health care facility, show their VA ID and Photo ID card. To get a no-cost flu shot from Walgreens from August 15, 2016–March 31, 2017, enrolled VA patients must also use Group Code #5933XBAYV.
- After vaccination at Walgreens, that information is sent safely and to the patient's VA health record—and within the established requirements of the eHealth Exchange.²
- The type of vaccine, date given, and who gave the vaccine will be part of the patient's health care record.
