## **Introduction**

The MST Section of Office of Mental Health is changing the MST Clinical Reminder patient cohort logic to include all former Service members potentially eligible for MST-related care, not just those former Service members with Veteran status. These individuals may be eligible for MST-related care and screening will serve to confirm eligibility and as needed, connect them with care available. This change is needed to make VA compliant with legislation that expanded eligibility for MST-related care.

The change is only to the reminder cohort logic.

This would be the new primary cohort logic:

Patient is a Veteran and does not have an ineligible reason of DVA 12C or DVA 12D w/o Chapter 17.

OR

Patient has a secondary eligibility of CLINICAL EVALUATION, is not a Veteran and does not have an ineligible reason of DVA 12C or DVA 12D w/o Chapter 17 or ACDUTRA

No changes to the template have been made.

End users should not see any difference.

When this is installed, you will NOT install the reminder dialog piece. Please follow the below instructions carefully.

UPDATE\_2\_0\_229B contains 1 Reminder Exchange entry:  
UPDATE\_2\_0\_229B VA-MST SCREENING UPDATE

**The exchange file contains the following components:**

**TIU TEMPLATE FIELD**

VA-MST FACTSHEET

**HEALTH FACTORS**

VA-REMINDER UPDATES [C]

## **Post Installation**

Using the VistA menu Reminder Managers Menu Option: RM Reminder Definition Management, RI Inquire about Reminder Definition, inquire into the reminder definition VA-MST SCREENING and confirm the text in the technical description section starts with “Cohort logic updated 2025”. You can also right click on the reminder in CPRS and do a reminder inquiry.
