Introduction

As per 38CFR Part 17 RIN 2900-AR57 the Veteran's Health Administration has amended its medical regulations to:

1. Remove the exclusion on abortion counseling.
2. Establish exceptions to the exclusion on abortions for Veterans who receive care at the VA and CHAMPVA (Civilian Health and Medical Program of the Department of Veterans Affairs) beneficiaries.

This new documentation template was created to support this change.

Users of the template will be those who provide treatment for early pregnancy loss or abortion, using medication or a procedure, including those who are referring patients to the community for that care.
