Introduction

This is an update of an existing national reminder dialog, VA-SEXUAL HEALTH. It was originally released in August 2022 in Reminder Update 302.

This template will be used to evaluate and document a patient's sexual health history, general health, concerns, risks, well-being, and goals. Every patient should have an annual sexual health review, consistent with VHA Directive 1340. The users of this template would be clinical providers who see patients for routine health care. This template is a voluntary tool to aide assessment. The eight sections below may be completed at different visits depending on time constraints and the Veteran's needs or completed by different clinicians on the treatment team. An annual update should review the last assessment and note changes.

UPDATE_2_0_431 contains 1 Reminder Exchange entry:

UPDATE_2_0_431 VA-SEXUAL HEALTH

The exchange file contains the following components:

Post Installation

1. Map order dialog(s) or menus to the following: (labs, consults, etc.)

- If your site uses a STI menu which includes HIV and HBV/HCV orders, please link that menu to VAL-EL SEXUAL HA CARE PLAN TESTING STI. The remaining STI elements may be disabled.

- Disable any elements if the order is unavailable. For PrEP, PEP, and DoxyPep, these elements may be linked to the corresponding consult quick order if prescribing of these medications is restricted to ID service.

a. STI Order Menu maps to: VAL-EL SEXUAL HA CARE PLAN TESTING STI

Current dialog element/group name: VAL-EL SEXUAL HA CARE PLAN TESTING STI
