Introduction

Description:

Through collaboration with multiple program offices and clinical leadership Veterans Transportation Program recognized the need to extend the consult approval timeline from 1 year to 2 for medical conditions that are permanent in nature. This will reduce the administrative burden on clinical staff while also ensuring that the agency meets the administrative auditing requirements.

Both the Beneficiary travel note and the Beneficiary travel consult reply note were updated to remove the 1 year time frame and replace with a 2 year time frame..

A version number was added to both notes.

The reminder definition VA-BENEFICIARY TRAVEL (BT) was updated to change the usage field to R for reports. This definition is used for branching logic only and changing the usage to R will prevent anyone from adding to their cover sheet. It was also updated to include the new 2 year option.

UPDATE_2_0_433 contains 1 Reminder Exchange entry:

UPDATE_2_0_433 VA-BENETRAVEL UPDATE

The exchange file contains the following components:

Pre-Install

1. Using the Vista menu, Reminder Dialog Management, Reminder Dialogs, change view to Group, inquire into group **VA-BENE TRAV GP OPTIONAL INTER-FACILITY TRANSFER YES** and identify the local orderable item used as a finding item for interfacility transfer. Your facility may not have an order mapped to this item.
2. Using the Vista menu, Reminder Dialog Management, Reminder Dialogs, change view to Group, inquire into group **VA-BENEFICIARY TRAVEL GP AID AND ATTENDANCE** and identify the local orderable item used as a finding item for beneficiary travel.

During the installation, when this prompt "FINDING entry Q. ORZ VA BENEFICIARY TRAVEL does not exist. Select one of the following:" appears during installation, you will replace with your local QO for beneficiary travel.
