Introduction

Description:

This update adds an option to document that counseling isn't indicated to the Teratogenic Drugs Education Template to have it align with the counseling bullets in the medication review in the Pregnancy/Intentions/Contraction clinical reminder. When the template was initially released the assumption was that it would only be used when someone wanted to document counseling. However, some sites are requiring that users document in the template when they receive any CROC for teratogens and users need to have the ability to document when counseling is not indicated.

Below is an example, this option was added to all three choices (pregnant, pregnancy status unknown/not pregnant and lactating).

UPDATE_2_0_439 contains 1 Reminder Exchange entry:
    UPDATE_2_0_439 VA-TERATOGENIC EDUCATION UPDATE

The exchange file contains the following components:

REMINDER GENERAL FINDINGS
    TICKLER REMINDER COMMENT

Install Details

This update is being distributed as a web host file. The address for the host file is:
https://Redacted/UPDATE_2_0_439_1.PRD

The file will be installed using Reminder Exchange, programmer access is not required.

Installation:
=============
This update can be loaded with users on the system. Installation will take less than 5 minutes.

Install Example

To Load the Web Host File. Navigate to Reminder exchange in Vista

```
+            + Next Screen    - Prev Screen    ?? More Actions              >>>
CFE   Create Exchange File Entry        LHF   Load Host File
CHF   Create Host File                  LMM   Load MailMan Message
CMM   Create MailMan Message            LR    List Reminder Definitions
DFE   Delete Exchange File Entry        LWH   Load Web Host File
IFE   Install Exchange File Entry       RI    Reminder Definition Inquiry
IH    Installation History              RP    Repack
Select Action: Next Screen// LWH    Load Web Host File
Input the URL for the .prd file: https://                        /UPDATE_2_0_439_1.PRD
```

At the **Select Action:** prompt, enter **LWH** for Load Web Host File
At the **Input the url for the .prd file:** prompt, type the following web address:
https://REDACTED/UPDATE_2_0_439_1.PRD

You should see a message at the top of your screen that the file successfully loaded.

Search and locate an entry titled **UPDATE_2_0_439 VA-TERATOGENIC EDUCATION UPDATE** in reminder exchange.

Select Action: Next Screen// Q
```

You will then be returned to this screen. At the **Select Action** prompt, type **Q.**

Install complete.

Post Installation

1. **Open the Teratogenic Education template (this may be in your shared template folder) or review the dialog text in VistA (Dialog name: VA-WH TERATOGENIC EDUCATION) and confirm the version now displays as 3.1.**

   Confirming the version number of 3.1 indicates that the install was successful. If you would like to also confirm the new option for Counseling Not Indicated displays in CPRS, you will need to open the template on a female patient under the age of 49.
