Introduction

This update is for Breast Cancer Clinical Pathways. Clinical pathways standardize evidence-based practices to ensure high quality, cost-effective care for patients at each point in their care plan. The Breast Cancer Clinical Pathways templates will be used to document treatment decisions related to Breast cancer. These templates were developed by the National Oncology Program Office in collaboration with an interdisciplinary team of subject matter experts, with the support of national program offices such as medical oncology, radiation oncology, surgery, pathology, and pharmacy.

The purpose of these templates is to collect data on clinical pathways utilization and will facilitate continuous process improvement efforts, which may result in a change to provider practice, local processes, or a change to the clinical pathway recommendations. Recommendations are based upon national guidelines, published literature, and institutional experience with efficacy, toxicity and cost.

VHA Directive 1415 requires that all sites use the National Oncology templates. If your site does not provide oncology services, the site must request a waiver to exempt it from the requirement to use the National Oncology templates. The waiver can be requested by emailing REDACTED

For more information regarding the National Oncology Program:
REDACTED

There are 4 new templates, each containing multiple pathways. They will be in shared templates and linked to note titles.

Any person on the care team can complete the templates (medical oncologist, radiation oncologist, surgeon).

2. Setup of specific Note titles.

You will need to create four new note titles for these templates, as follows:

ONCOLOGY BREAST CANCER DCIS PATHWAYS

ONCOLOGY BREAST CANCER RECURRENCE PATHWAYS

ONCOLOGY BREAST CANCER STAGE I-III PATHWAYS

ONCOLOGY BREAST CANCER STAGE IV PATHWAYS

All the note titles above are to be mapped to the following VHA Enterprise Standard Title:

HEMATOLOGY AND ONCOLOGY NOTE

Note: Comprehensive information on Creating Document Definitions can be found beginning on page 47 of the [TIU/ASU Implementation Guide](#)

3. Associate the new reminder dialogs with the note titles in CPRS

To do this, go to Template Editor, then Document Titles, select the appropriate folder (if applicable), and choose **New Template** (top right-hand corner).

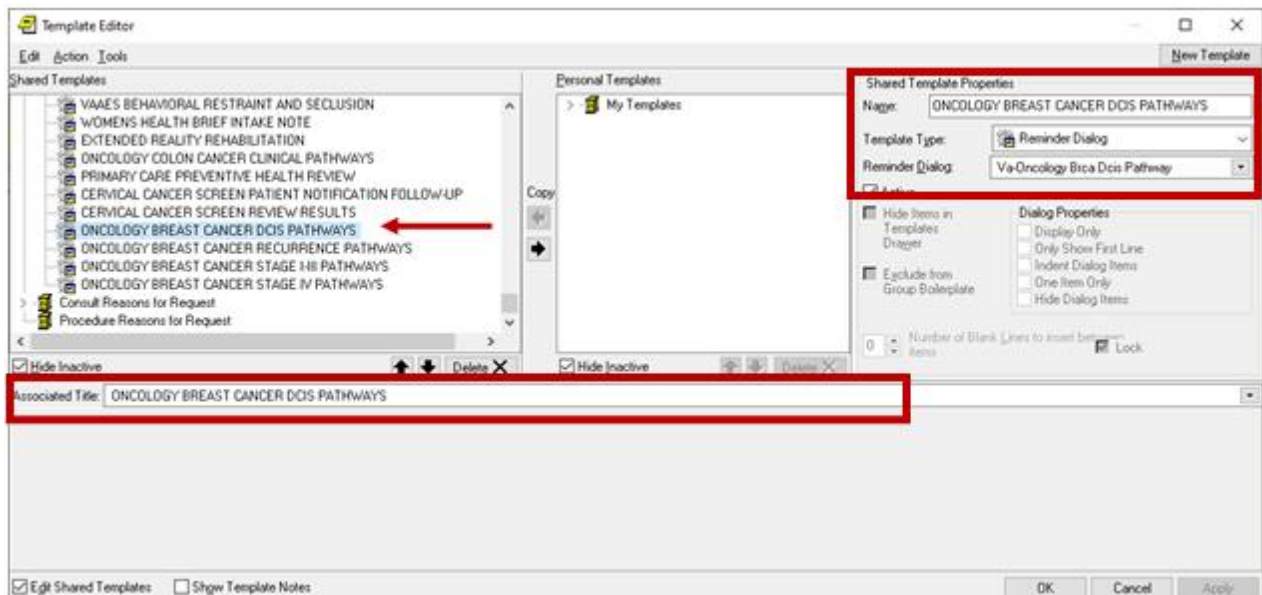

a. Type in the following information:

Name: **ONCOLOGY BREAST CANCER DCIS PATHWAYS**

Template Type: Reminder Dialog

Reminder Dialog: **VA-ONCOLOGY BRCA DCIS PATHWAY**

Next, type in the Associated Title, which in this case is **ONCOLOGY BREAST CANCER DCIS PATHWAYS** and click Apply.
