Dialog: **VA-REMOTE TEMPERATURE MONITORING**

Change the display to Detailed Display (DD), and add quick orders to the additional findings field for any group or element you identify from your saved inquiry.

Select ADDITIONAL FINDING: Enter "Q.", then name of local quick order

(Map the quick orders identified in the pre-installation step to the additional findings)

Take Note: After installation, you will want to ensure the elements and/or groups that were 'disabled' pre-install are also 'disabled' post-install. For any element and/or group that had a quick order previously mapped, you will need to ensure those same elements and/or groups are 'enabled' and are re-mapped with the same quick order.

NOTE: If you require further technical assistance, if there are any questions or problems during the installation, please notify your local IT support to log a national help desk ticket or contact the VA Service Desk and have them submit a national ticket to:
