## 1. Glossary of Terms and Abbreviations

**AED** – Anti Epileptic Drugs

**ECOE** – Epilepsy Center of Excellence

**KIDS**- Kernel Installation Distribution System

**NCRC** – National Clinical Reminder Committee

**SE ECOE**- Southeast Epilepsy Center of Excellence

**SLT**- Selective Lab Test

**TIU**-Text Integrated Utility

**VMP**- VistA Maintenance Program

**VNS**- Vagus Nerve Stimulation

**Branching Terms**- A reminder term used to determine Boolean logic for branching/changing content within a reminder dialog window when it opens specific to the patient's chart information.

**Branching Definition**- A reminder definition that is used within a branching term to evaluate the Boolean logic to determine the content in a reminder window for a dialog element or dialog group.

**Dialog**- A window in CPRS that opens in the format of a form to aid the user in creating text in a note and entering information into the record with a point and click interface.

**Education Topics**- Informational data markers entered into the record to document topics that the patient was educated on.

**Elements**- A component in VistA that is configured to display content for the user when a dialog is opened.

**Health Factor**- Informational data marker entered into the record to document patient information that is not readily identifiable with other information data entries in the system.

**Health Summary Types/Objects**- A collection of data that displays to the user specific to the patient's chart they are viewing.

**Mapping**- Linking of data markers such as Health Factors or other data entry items to reminder components such as reminder elements.

**National Class**- The highest collection of edit permissions which can be assigned to a reminder component

**Taxonomy**- Collection of specific codes associated with specific clinical conditions

**Template**- Commonly referred to as a dialog. See **dialog** for definition

**Shared Templates**- Templates within the shared templates tree of CPRS, which the users can access and use while documenting in the chart

**Usability Testing**- Software usage testing conducted with users for review and acceptance of the software product.

## 2. Introduction

The VA-ECOE templates project is a product developed in collaboration with the VA Epilepsy Center of Excellence (ECOE), VHA Informatics Council (VHA IC), National Clinical Reminder Committee (NCRC), National HIMS Office, VistA Maintenance Program (VMP), Nashville Usability Testing staff, and Miami VA Healthcare System staff, which provides guidance for the collection of the information of Veterans diagnosed with epilepsy to support uniform care and epilepsy surveillance. Thanks to the Southeast ECoE team led by REDACTED SE ECoE Regional Clinical Director and REDACTED the SE ECoE Regional Director, for facilitating the development and implementation of this tool.

The templates were created for, but not limited to ECOE sites, which are vital for quality control and research data for improvement in specialized epilepsy health care. The templates incorporate all of the American Academy of Neurology Epilepsy Quality Measures and the National Institute of Health recommended Common Data Elements. The database will be maintained by the VA Epilepsy Centers of Excellence Program implemented in 2008 by Public Law 110-387 mandate. Any site other than ECOE sites that would like to use the templates can and should contact REDACTED

A secondary part of this patch is to update URL's that are embedded in national Template Fields within CPRS. Currently the URL's take you to "Page Not Found". With this release, the links will work correctly. The six Template Fields are listed below. These Template Fields are part of the National Reminders for Alcohol, Depression, PTSD screenings and VANOD reminder dialogs

VA-URL PCL-C INFO

VA-URL PCLC

VA-URL PHQ9

VA-URL AUDIT-C

VANOD BRADEN SCALE INFO

VANOD URL HANDBOOK

These six Template Fields will be updated with Reminder Exchange entry VA-URL UPDATE CARRIER ELEMENT and VA-URL UPDATE CARRIER ELEMENT 2. These Reminder Exchange entries contain reminder dialog element VA-URL UPDATE CARRIER ELEMENT and VA-URL UPDATE CARRIER ELEMENT 2. Once the URL's are updated, both the Reminder Exchange entry and the reminder dialog element will be deleted from your system.

### 3. Pre-installation Steps

#### 3.1. Consult Orders

**Before the patch is installed** the Reminder Manager at your site must take note of two mapped consult orders (Quick Order Dialogs). During the patch install the programmer installing the patch will be asked for the name of the local sites mapped orders to make a replacement with. The two dialog elements that contain the quick order are as follows:

VA-PDIQ POLYTRAUMA CONSULT

VA-TBI OI CONSULT FOR KNOWN TBI

#### 3.2. Note Titles

If your site already has consult response titles in place and in use for your Epilepsy service, your site may opt to use those titles instead of the consult response titles below. If your site does not have titles already in use, then the titles listed below are the suggested consult titles that will need to be created and mapped to the National Standard Title “Neurology Consult”. The “EPILEPSY FOLLOW-UP CONSULT RESPONSE” and “EPILEPSY INITIAL CONSULT RESPONSE” titles will also need to be added into the “Consults” document class for responding to consults.

The “EPILEPSY RESEARCH” note goes into the “Progress Notes” class or designated class at your site for Neurology Notes and mapped to the National Standard Title of “Neurology Note”. Further instructions for the dialog setup that links the needed titles to dialogs are covered in the [Post-installation steps](#).

- |   |                                     |       |
|---|-------------------------------------|-------|
| 1 | EPILEPSY FOLLOW-UP CONSULT RESPONSE | TITLE |
|   | Std Title: NEUROLOGY CONSULT        |       |
| 2 | EPILEPSY INITIAL CONSULT RESPONSE   | TITLE |
|   | Std Title: NEUROLOGY CONSULT        |       |
| 3 | EPILEPSY RESEARCH                   | TITLE |
|   | Std Title: NEUROLOGY NOTE           |       |

### 3.3. Labs for AED levels and other orderable items

Work with your local pharmacy to do a lookup for all the Anti-Epileptic Drugs listed in your system. You will need this list of meds post-installation to complete a Health Summary Object.

The following is a list of elements within the dialogs that will also need to be mapped with order menus, quick orders and order sets that are used at your site:

VA-ECOE ORDERS LAB AED LEVELS  
VA-ECOE ORDERS LAB BMP  
VA-ECOE ORDERS LAB CBC  
VA-ECOE ORDERS LAB LFT  
VA-ECOE ORDERS LAB VIT D  
VA-ECOE ORDERS LAB OTHER

## 5. Component Inventory

### 5.1. Dialog List

There are 4 dialogs that will be installed on your system. The follow-up note and initial note will be tied to note titles. The quality of life and education will be for shared templates. See [Post-installation steps](#) section for setting these up.

```
VA-ECOE FOLLOW-UP NOTE
VA-ECOE INITIAL NOTE
VA-ECOE QUALITY OF LIFE TPL
VA-ECOE EDUCATION TPL
```

### 5.2. Branching Terms

The following is a list of all the branching terms:

```
VA-BL ECOE ALCOHOL USE SCREEN      NATIONAL
VA-BL ECOE DEPRESSION SCREEN      NATIONAL
VA-BL ECOE OEF/OIF                NATIONAL
VA-BL ECOE TBI OEF/OIF            NATIONAL
```

### 5.3. Branching Definitions

There is only one branching reminder definition named “VA-BL OEF/OIF COHORT” that is new in this installation. There aren’t any special instructions for this reminder definition.

### 5.4. Health Factors

There are 18 National Class health factors categories containing 272 individual health factors. See [Appendix \(A\)](#) for listing.

### 5.5. Education Topics

The following National Education topics are included in this install.

```
VA-ECOE AED SIDE EFFECTS
VA-ECOE BONE HEALTH
VA-ECOE CONTRACEPTION
VA-ECOE DRIVING
VA-ECOE EPILEPSY RESOURCES
VA-ECOE MH
VA-ECOE OTHER TOPIC
VA-ECOE PREGNANCY
VA-ECOE SAFETY
VA-ECOE SEIZURE PRECAUTIONS
VA-ECOE SUDEP
VA-ECOE SUICIDE IDEATION
VA-ECOE TREATMENT COMPLIANCE
```

## 5.6. Taxonomies

There is 1 taxonomy named “VA-ECOЕ DIAGNOSIS CODES” which is mapped to an element for entering diagnosis codes into the visit encounter. See [Appendix \(B\)](#) for listing.

**Note:** This element will not include the diagnosis in any of the text created in the notes.

## 5.7. Health Summary Types/Objects

There are 8 new Health Summary Types/Objects that will install with this build.

Mapping will only be needed for the two Health Summary Types named **ECOЕ AED LEVELS** and **ECOЕ VITAMIN D LEVEL**.

### **ECOЕ AED LEVELS**

ECOЕ DEPRESSION CMB  
ECOЕ LAST EVENTS NOTED  
ECOЕ LAST MED PLAN  
ECOЕ OEF/OIF TBI  
ECOЕ PREVIOUS AEDS  
ECOЕ PREVIOUS DIAGNOSTICS  
ECOЕ VITAMIN D LEVEL  
ECOЕ VNS INITIAL  
ECOЕ VNS LAST

## 6. Post-installation Steps

### 6.1. Computed Finding Parameter Edits

There are 3 branching reminder terms that each have a VA-REMINDER DEFINITION computed finding. The “Computed Finding Parameter” will need to be edited to remove the imported COMPUTED FINDING PARAMETER entry of “ENTER DEFINITION HERE” and replace it with the names of National definitions.

#### 1.

VA-BL ECOE ALCOHOL USE SCREEN

Findings:

Finding Item: VA-REMINDER DEFINITION (FI(1)=CF(35))  
Finding Type: REMINDER COMPUTED FINDING  
Condition: I V("STATUS")="DONE"!(V("STATUS")="RESOLVED")

After

## 6.2. Mapping Reminder Elements

The list of Dialog Elements below will need to have the findings mapped to the local orders, order sets or menus. The LAB AED LEVELS should be mapped to a menu that lists the lab orders for the AED list obtained during pre-install. This will need to be created manually at your site if one does not already exist on your system.

VA-ECOE ORDERS LAB AED LEVELS  
VA-ECOE ORDERS LAB BMP  
VA-ECOE ORDERS LAB CBC  
VA-ECOE ORDERS LAB LFT  
VA-ECOE ORDERS LAB VIT D  
VA-ECOE ORDERS LAB OTHER  
VA-ECOE ORDERS TEST EEG  
VA-ECOE ORDERS TEST MRI  
VA-ECOE ORDERS TEST PET  
VA-ECOE ORDERS TEST ICTAL SPECT  
VA-ECOE ORDERS TEST INTERICTAL SPECT  
VA-ECOE ORDERS TEST MEG  
VA-ECOE ORDERS TEST VID EEG  
VA-ECOE ORDERS NEUROPSYCHOLOGICAL  
VA-ECOE OTHER TESTS  
VA-ECOE ORDERS CONSULT MH  
VA-ECOE ORDERS CONSULT OB/GYN  
VA-ECOE ORDERS CONSULT ENDO  
VA-ECOE ORDERS CONSULT NEURO  
VA-ECOE ORDERS CONSULT SWS  
VA-ECOE ORDERS CONSULT OTHER

### 6.3. Mapping Health Summary Types/Objects

Using the AED list in the previous step 5.1, check the Health Summary Types named "ECO E AED LEVELS" and "ECO E VITAMIN D LEVEL". The selective labs for each medication and for Vitamin D need to be included in the components list in the Health Summary Type, Selective Lab Tests (SLT). Add the additional lab tests as needed for your site. See [Appendix \(D\)](#) for an example edit.

```

                                HEALTH SUMMARY TYPE INQUIRY

-----
SLT  5    AED Levels          1
                                           CARBAMAZEPINE
                                           CLONAZEPAM
                                           DIAZEPAM
                                           PHENOBARBITAL
```

#### 6.4. Enabling and Attaching the Dialogs to Titles

**While using the TIU Editor if at any time the settings do not look correct NEVER click the apply button, but instead click Cancel, then start over.**

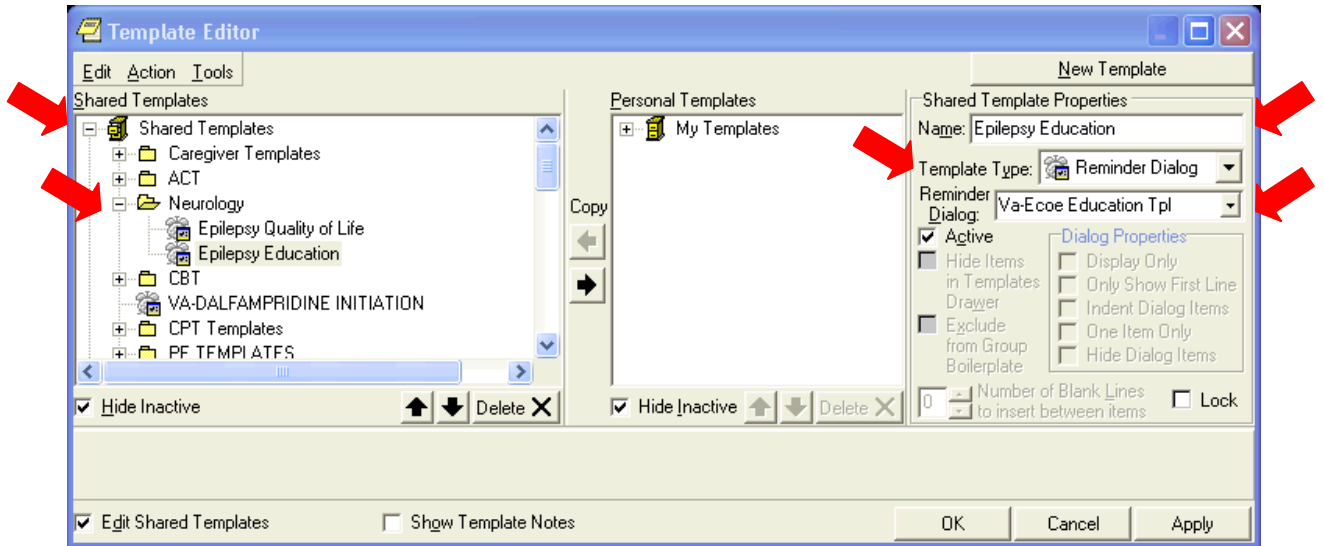

Before linking the dialogs to titles or using them in shared templates you must first add each one into the TIU Template Reminder Dialog Parameter list. See [Appendix \(C\)](#) for an example of adding the VA-ECOE INITIAL NOTE dialog to the list.

Link the dialogs from the TIU editor found in the Options menu in CPRS while on the Notes tab. Create a new template in the Document Titles cabinet in the upper left panel for each title name then associate the title using the dropdown list in the bottom panel.

## 6.5. Creating the Shared Templates

Search for the folder that your Neurology service uses in the Shared Templates cabinet in the upper left panel of the TIU Editor. If one does not exist then you will have to create new one to hold the shared template dialogs. Create 2 new templates in the Neurology folder called “Epilepsy Quality of Life” and “Epilepsy Education”. Link each one by selecting the template type of Reminder Dialog and selecting the dialogs named “VA-ECOIE Quality of Life TPL” and “VA-ECOIE Education TPL” accordingly.
