AMENDED July 10, 2024

Department of Veterans Affairs Veterans Health Administration Washington, DC 20420 VHA DIRECTIVE 1900(5)
Transmittal Sheet
August 30, 2023

VA NATIONAL STANDARDS OF PRACTICE

1. SUMMARY OF CONTENT: This Veterans Health Administration (VHA) directive establishes, consistent with Department of Veterans Affairs (VA) authority under 38 C.F.R. § 17.419, national standards of practice for various health care occupations for VA health care professionals to follow within the scope of their VA employment, regardless of any conflicting state laws or restrictions that unduly interfere with their practice. **NOTE:** From Appendix B, each appendix serves as an individual national standard of practice. This directive establishes basic principles that apply across all national standards of practice, including oversight, reporting, implementation, training, and recertification.

a. Amendment, dated July 10, 2024:

- (1) Publishes national standard of practice for Registered Dietitian Nutritionists as Appendix M.
- (2) Publishes national standard of practice for Blind Rehabilitation Specialists as Appendix N.

b. Amendment, dated June 27, 2024:

- (1) Publishes national standard of practice for Art Therapists as Appendix H.
- (2) Publishes national standard of practice for Dance/Movement Therapists as Appendix I.
 - (3) Publishes national standard of practice for Drama Therapists as Appendix J.
 - (4) Publishes national standard of practice for Music Therapists as Appendix K.
 - (5) Publishes national standard of practice for Recreation Therapists as Appendix L.

c. Amendment, dated April 2, 2024:

- (1) Rescinds VHA Directive 1899(2), Health Care Professional Practice in VA, dated April 21, 2020.
- (2) Updates responsibilities for Veterans Integrated Service Networks (VISN) Directors and VA medical facility Directors by incorporating reporting requirements from (now rescinded) VHA Directive 1899(2), Health Care Professional Practice in VA.
 - (3) Adds "local document requirements" section to transmittal sheet.

- (4) Updates process in Appendix A to include listening sessions with external stakeholders.
 - (5) Publishes national standard of practice for Cytotechnologists as Appendix D.
- (6) Publishes national standard of practice for Histopathology Technologists as Appendix E.
- (7) Publishes national standard of practice for Therapeutic Medical Physicists as Appendix F.
- (8) Publishes national standard of practice for Orthotist, Prosthetist, and Prosthetist-Orthotists as Appendix G.
- d. **Amendment, dated December 12, 2023:** Publishes national standard of practice for Ophthalmology Technicians as Appendix C.
 - e. Amendment, dated September 20, 2023:
 - (1) Reorganizes and clarifies information for logical flow of content, including:
- (a) Adds "Preemption of State Requirements" (paragraph 3) and "Relationship with Qualification Standards" (paragraph 6), incorporating information previously in the Implementation and Background paragraphs.
- (b) Wording changes throughout directive per Office of General Counsel edits provided after their review and concurrence (see paragraphs 2.e.(4), 2.h.(3), 2.k.(1), 2.k.(2), 7, and Appendix A paragraph 6.b.).
- (c) Clarifies VISN Directors' responsibility on reporting requirements (paragraph 2.g.(2)) and adds responsibilities for VA medical facility Supervisors (paragraph 2.j.) to ensure properly incorporated feedback loops.
- (d) Adds definition for national standards of practice from language previously in Background (paragraph 10.d.).
- (e) Expands on the steps in process to develop national standards of practice (Appendix A).
- (2) Publishes national standard of practice for Kinesiotherapists as Appendix B, replacing the template.
- 2. RELATED ISSUES: None.
- **3. POLICY OWNER:** The Office of Governance, Regulations, Appeals, and Policy (10B-GRAP) is responsible for the content of this directive. Questions may be referred to VA.NSP@va.gov. **NOTE:** Each appendix (that is, national standard of practice) is

owned by the designated responsible program office. Questions on each national standard of practice may be referred to the designated responsible program office.

- **4. LOCAL DOCUMENT REQUIREMENTS:** None. *NOTE:* Each national standard of practice is listed in the applicable appendix and may have additional local document requirements.
- 5. RESCISSIONS: None.
- **6. RECERTIFICATION:** This VHA directive is scheduled for recertification on or before the last working day of August 2028. This VHA directive will continue to serve as national VHA policy until it is recertified or rescinded.
- **7. IMPLEMENTATION SCHEDULE:** This directive is effective upon publication. **NOTE:** The publication date of each national standard of practice is listed in the applicable appendix. The effective date of each national standard of practice may differ from the publication date to allow for delayed implementation and further engagement of VA employees.

BY DIRECTION OF THE OFFICE OF THE UNDER SECRETARY FOR HEALTH:

/s/ Shereef Elnahal, MD, MBA Under Secretary for Health

DISTRIBUTION: Emailed to the VHA Publications Distribution List on August 31, 2023.

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

VA NATIONAL STANDARDS OF PRACTICE

1. POLICY

It is Veterans Health Administration (VHA) policy to establish national standards of practice for all Department of Veterans Affairs (VA) health care occupations whose professionals must be licensed, certified, registered or satisfy another state requirement in order to meet VA qualification standards. **AUTHORITY:** U.S. Constitution Article VI, clause 2; 38 U.S.C. §§ 1730C, 7301(b), 7401-7464; 38 C.F.R. §§ 17.417, 17.419.

2. RESPONSIBILITIES

- a. **Under Secretary for Health.** The Under Secretary for Health is responsible for:
- (1) Ensuring overall VHA compliance with this directive.
- (2) Reviewing any actions proposed by executive sponsors in furtherance of this effort and ensuring collaboration with VA and VHA leadership as needed.
- b. <u>Assistant Under Secretary for Health for Patient Care Services.</u> The Assistant Under Secretary for Health for Patient Care Services is responsible for:
- (1) Serving as executive sponsor of the VA national standards of practice initiative, including reviewing and approving national standards of practice and representing VHA to internal and external groups.
- (2) Concurring on reports from Veterans Integrated Service Networks (VISN) Directors (via Executive Director, Office of Governance, Regulations, Appeals, and Policy (GRAP)) under paragraph 2.g.(2) of this directive.
- (3) Supporting the implementation and oversight of this directive across VHA for the occupations over which they have authority, including ensuring a workgroup is established for each occupation to develop and update, as appropriate, occupation-specific national standards of practice, in accordance with the process specified in Appendix A.
- c. <u>Assistant Under Secretary for Health for Clinical Services.</u> The Assistant Under Secretary for Health for Clinical Services is responsible for:
- (1) Serving as executive sponsor of the VA national standards of practice initiative, including reviewing and approving national standards of practice and representing VHA to internal and external groups.
- (2) Concurring on reports from VISN Directors (via Executive Director, GRAP) under paragraph 2.g.(2) of this directive.
- (3) Supporting the implementation and oversight of this directive across VHA for the occupations over which they have authority, including ensuring a workgroup is

established for each occupation to develop and update, as appropriate, occupationspecific national standards of practice, in accordance with the process specified in Appendix A.

- d. <u>Assistant Under Secretary for Health for Operations.</u> The Assistant Under Secretary for Health for Operations is responsible for:
 - (1) Communicating the contents of this directive to each of the VISNs.
- (2) Assisting VISN Directors to resolve implementation and compliance challenges in all VA medical facilities within that VISN.
- (3) Providing oversight of VISNs to ensure compliance with this directive and its effectiveness.
- e. <u>Chief Officer/Executive Director</u>, <u>VHA Program Office</u>. Each national standard of practice lists a designated responsible program office, over which the corresponding Chief Officer, Executive Director, or equivalent, of the listed occupation is responsible for:
- (1) Providing guidance to support VISN and VA medical facility compliance with this directive and advising on corrective action if non-compliance is identified.
- (2) Providing guidance on all issues related to their occupation-specific national standard of practice.
- (3) Overseeing the workgroup of subject matter experts to develop and update, as appropriate, their occupation-specific national standard of practice, including adhering to applicable authorities and the process specified in Appendix A.
- (4) Determining any training for VA health care professionals to be competent to practice in accordance with their occupation's national standard of practice to enable proper incorporation of duties and tasks in the national standard of practice into their individual privileges, scope of practice or functional statement.
- f. <u>Executive Director</u>, <u>Office of Governance</u>, <u>Regulations</u>, <u>Appeals</u>, <u>and Policy</u>. The Executive Director, GRAP is responsible for:
 - (1) Updating this directive, as appropriate.
- (2) Compiling the reports from VISN Directors under paragraph 2.g.(3) of this directive and, when necessary, proposing appropriate action based on the information reported. Reports are submitted to the Under Secretary for Health after concurrence by the Assistant Under Secretaries for Health for Patient Care Services, Clinical Services and Operations. *NOTE:* The Executive Director, GRAP may, through publication of an appendix to this directive, delegate, or reassign reporting responsibility to an individual or body responsible for implementation of national standards of practice.

- g. <u>Veterans Integrated Service Network Director</u>. The VISN Director is responsible for:
- (1) Communicating the contents of this directive to each VA medical facility Director within their network.
- (2) Providing oversight for VISN and VA medical facility compliance with this directive and ensuring corrective action is taken if non-compliance is identified.
- (3) Collecting, compiling, and sending reports to the Executive Director, GRAP, every three months from each VISN of all external actions initiated, pending, or completed by a state or state licensing board against VA health care professionals at their VA medical facility regarding their state license, registration, or certification for practicing across state lines or according to their national standard of practice in compliance with this directive.
 - h. VA Medical Facility Director. The VA medical facility Director is responsible for:
- (1) Ensuring overall VA medical facility compliance with each national standard of practice and appropriate corrective action is taken if non-compliance is identified.
- (2) Ensuring each national standard of practice is implemented within the VA medical facility in accordance with paragraph 4, including ensuring that standards are properly incorporated into existing scopes of practice, privileges, and functional statements.
- (3) Ensuring all VA health care professionals are provided with the education or training to be competent to perform all duties and tasks as outlined in their applicable national standard of practice. **NOTE:** See the appendices for training specific to a national standard of practice. Where no variance exists among states, there is no additional training required pursuant to this directive.
- (4) Ensuring the VA medical facility reports to the VISN Director every three months any external actions initiated, pending, or completed by a state or state licensing board against VA health care professionals at their VA medical facility regarding their state license, registration, or certification as a result of practicing across state lines or according to their national standard of practice in compliance with this directive.
- i. **VA Medical Facility Service Line Chiefs.** The VA medical facility Service Line Chiefs are responsible for:
- (1) Ensuring that all VA health care professionals within their service line adhere to national standards of practice for their occupation as incorporated into their individual privileges, scope of practice or functional statement.
- (2) Informing the VA medical facility Director of any action by a state or state licensing board against VA health care professionals within their service line related to their practice consistent with their national standard of practice at the earliest date after

notification is received from the VA medical facility supervisor, but no later than 15 days after notification is received.

j. <u>VA Medical Facility Supervisor(s).</u> VA medical facility supervisors are responsible for informing the VA medical facility Service Line Chiefs of any action by a state or state licensing board against VA health care professionals under their supervision related to their practice consistent with their national standard of practice at the earliest date after notification is received from the VA health care professional, but no later than 15 days after notification is received.

k. VA Health Care Professionals. VA health care professionals are responsible for:

- (1) Adhering to applicable national standards of practice for their occupation once the duties and tasks have been properly incorporated into their individual privileges, scope of practice, or functional statement.
- (2) Completing any VHA training to aid in practice consistent with their occupation's national standard of practice. **NOTE:** See the appendices for training specific to a national standard of practice. Where no variance exists among states, there is no additional training required pursuant to this directive.
- (3) Informing their supervisor of any action by a state or state licensing board related to any practice that is consistent with their national standard of practice but that could adversely affect, or otherwise limit, their license, registration, or certification at the earliest date after notification is received by the VA health care professional, but no later than 15 days after notification is received. This information is needed to ensure appropriate VA response, which generally includes contacting the state licensing board and referral to Office of General Counsel for evaluation of representation when the state action is inconsistent with 38 C.F.R. § 17.419. **NOTE:** This includes not only final actions, but also pending and proposed actions.

3. PREEMPTION OF STATE REQUIREMENTS

a. VA's national standards of practice utilize VA's authority as described in 38 C.F.R. §§ 17.417 and 17.419 to manage and direct health care provided on behalf of the United States to the Nation's Veterans consistently across all states. To achieve important Federal interests, including but not limited to the ability to provide the same comprehensive health care and hospital services to Veterans in all states under 38 U.S.C. § 7301, VA's national standards of practice preempt state and local laws, rules, regulations, or requirements pursuant to such laws that conflict with the practice of VA health care professionals who are working within the scope of their VA employment. State and local governments have no legal authority to enforce those laws, rules, regulations, or requirements in relation to activities performed by VA health care professionals acting within the scope of their VA employment under a national standard of practice or acting pursuant to decision made by VA under this section. *NOTE:* This directive does not supersede the Controlled Substances Act of 1970, 21 U.S.C. § 812, Schedules of controlled substances.

b. Each national standard of practice lists specific state requirements that are explicitly preempted by the national standard of practice. In addition, the national standard of practice preempts any state requirements that are not listed but that conflict with the duties and tasks authorized in the national standard of practice. In cases where a VA health care professional's license, registration, certification, or other state requirement allows a practice that is not included in a national standard of practice, the individual may continue that practice so long as it is permissible by Federal law and VA policy; is not explicitly prohibited by the national standard of practice; and is approved by the VA medical facility.

c. VA has taken reasonable and appropriate measures to consult with the states and obtain agreement about which state laws, rules, regulations, or requirements VA will preempt with the national standard of practice. VA requested that all states directly provide VA with feedback on the national standard of practice, to specifically include whether VA failed to identify that the state prohibits or restricts a duty that VA intends to preempt and to identify any prohibition or restriction that the state does not believe VA should preempt.

4. IMPLEMENTATION

a. No VA health care professional is individually authorized to perform a task or duty outlined in a national standard of practice unless it has been determined by their VA medical facility that the individual has the proper education, training, and skills to perform the task or duty and the task or duty is incorporated into the individual VA health care professional's privileges, scope of practice, or functional statement.

NOTE: For more information on credentialing and privileging, see VHA Directive 1100.20, Credentialing of Health Care Providers, dated September 15, 2021, and VHA Directive 1100.21, Privileging, dated March 2, 2023.

b. In the event that a state changes their requirements and places new limitations on the tasks and duties it allows, the national standard of practice preempts such limitations and authorizes the VA health care professional to continue to practice consistent with the tasks and duties as outlined in the national standard of practice. If, at any time before or after a national standard of practice becomes effective, a state becomes aware of a limitation that it believes should be followed by VA, or enacts such a restriction, the state is encouraged to contact VA.NSP@va.gov and include "State Variance in [State] for [Occupation]" in the subject line; however, the state cannot take action based on such restriction against a VA health care professional.

5. REPRESENTATION BEFORE STATE BOARDS

If a state licensing board initiates any licensing action against a VA health care professional for performing a task or duty that is permitted by the national standard of practice but inconsistent with the state licensing requirements, VA or the Department of Justice may provide representation before a state licensing board if the employee was acting within the scope of their VA employment and representation is in the Federal Government's interest along with other criteria. It is within the scope of VA employment

for a VA health care professional to practice consistent with the national standard of practice, even if inconsistent with their state license, certification, or registration requirements, if the tasks, duties, or services are properly incorporated into the health care professional's privileges, scope of practice, or functional statement. **NOTE:** See Under Secretary for Health Memorandum: Representation for VA Health Care Professionals Before State Licensing Boards, dated May 26, 2022, for more information, available at: https://vaww.va.gov/vhapublications/publications.cfm?pub=5. This is an internal VA website that is not available to the public.

6. RELATIONSHIP WITH QUALIFICATION STANDARDS

- a. VA qualification standards for employment are not changing as a result of national standards of practice.
- b. Qualification standards for employment of health care professionals by VA are outlined in VA Handbook 5005, Staffing, dated February 4, 2022. VA health care professionals must meet the respective qualification standards for licensure, certification, registration, or other state requirement. Where state requirements conflict with VA's qualification standards, VA follows the VA qualification standards and the national standard for practice does not change that. This includes, but is not limited to, when a state requires a license to practice a specific occupation, but VA does not require a state license as part of the qualification standards.
- c. Qualification standards may include grandfathering provisions to permit employees who met all requirements prior to revisions to the qualification standards to maintain employment at VA even if they no longer meet the qualification standards. Employees covered by grandfathering provisions included within relevant occupations' qualification standards in VA Handbook 5005 follow the applicable national standard of practice for their occupation unless the national standard of practice explicitly excludes them from following the national standard of practice.

7. TRAINING

Each national standard of practice includes any training for individual health care professionals to competently perform tasks, duties, or services included in the national standard of practice that are not otherwise permitted under a state requirement.

NOTE: See the appendices for training specific to a national standard of practice.

Where no variance exists among states, there is no additional training required pursuant to this directive.

8. RECORDS MANAGEMENT

All records regardless of format (for example, paper, electronic, electronic systems) created by this directive must be managed as required by the National Archives and Records Administration (NARA) approved records schedules found in VHA Records Control Schedule 10-1. Questions regarding any aspect of records management may be addressed to the appropriate Records Officer.

9. BACKGROUND

- a. As authorized by 38 C.F.R. § 17.419, this directive sets forth occupation-specific national standards of practice in VA. Consistent with 38 C.F.R. § 17.419, each national standard of practice refers to tasks and duties for a specific health care occupation regardless of the individual VA health care professional's location or state of licensure, certification, or registration. VA is developing national standards of practice to ensure safe, consistent, high-quality care for the Nation's Veterans in VA's integrated health care system and to ensure that VA health care professionals can efficiently meet the needs of Veterans when practicing within the scope of their VA employment. National standards of practice are designed to increase Veterans' access to safe and effective health care, thereby improving health outcomes for the Nation's Veterans.
- b. It is critical that VA, the Nation's largest integrated health care system, develops national standards of practice to ensure that Veterans receive the same high-quality care regardless of where they enter the VA health care system. The importance of this initiative has been underscored by the coronavirus disease 2019 (COVID-19) pandemic. The increased need for mobility in VA's workforce, including through VA's Disaster Emergency Medical Personnel System (DEMPS), highlighted the importance of creating uniform national standards of practice to better support VA health care professionals who already practice across state lines. Creating national standards of practice also promotes interoperability of medical data between VA and the Department of Defense (DoD), providing a complete picture of a Veteran's health information and improving VA's delivery of health care to the Nation's Veterans.

10. DEFINITIONS

- a. <u>Beneficiary.</u> Pursuant to 38 C.F.R. § 17.419, and for the purposes of this directive, a beneficiary is a Veteran or any other individual receiving health care under title 38. United States Code.
- b. <u>Health Care Professional.</u> Pursuant to 38 C.F.R. § 17.419, and for the purposes of this directive, a health care professional is an individual who:
- (1) Is appointed to an occupation in VHA that is listed in or authorized under 38 U.S.C. §§ 7306, 7401, 7405, 7406, or 7408 or title 5, United States Code;
 - (2) Is not a VA-contracted health care professional; and
 - (3) Is qualified to provide health care as follows:
- (a) Has an active, current, full and unrestricted license, registration, certification or satisfies another state requirement in a state;
- (b) Has other qualifications as prescribed by the Secretary for one of the health care professions listed under 38 U.S.C. § 7402(b);

- (c) Is an employee otherwise authorized by the Secretary to provide health care services; or
- (d) Is under the clinical supervision of a health care professional that meets the requirements of subsection (a)(2)(iii)(A)-(C) of 38 C.F.R. § 17.419 and is either:
- (e) A health professions trainee appointed under 38 U.S.C. §§ 7405 or 7406 participating in clinical or research training under supervision to satisfy program or degree requirements; or
- (f) A health care employee, appointed under title 5, United States Code; 38 U.S.C. § 7401(1) or (3); or 38 U.S.C. § 7405 for any category of personnel described in 38 U.S.C. § 7401(1) or (3) who must obtain an active, current, full, and unrestricted licensure, registration, certification or meet the qualification standards as defined by the Secretary within the specified time frame.
- c. <u>License</u>, <u>Registration</u>, <u>or Certification</u>. A license is the official or legal permission to practice in an occupation, as evidenced by documentation issued by a state in the form of a license. Registration or certification are the official attestation by a professional organization that one has fulfilled the requirements or met a standard or skill to practice the profession.
- d. <u>National Standard of Practice.</u> A national standard of practice is the level of practice established in VA for a specific VA health care occupation. National standards of practice allow VA health care professionals to perform tasks, duties, or services that are properly incorporated into their privileges, scope of practice, or functional statement and are consistent with their education, training, and skill, even when providing such care exceeds what is permitted by the VA health care professional's state license, registration, or certification, or any other state law or regulation to the contrary. National standards of practice apply to health care delivered both in person and through the use of electronic information or telecommunications technologies.
- e. <u>State.</u> Pursuant to 38 U.S.C. § 101(20), and for the purposes of this directive, state is each of the several states, Territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

PROCESS FOR DEVELOPMENT OF VA NATIONAL STANDARDS OF PRACTICE

The national standards of practice set forth in Appendices B et seq. are developed using the process set forth in this appendix, which adheres to the guidelines outlined in Executive Order (EO) 13132. This process includes consultation with internal Department of Veterans Affairs (VA) entities and external stakeholders. The process specified in this appendix is used for initial development and publication of all national standards of practice.

1. STEP 1: NATIONAL STANDARD OF PRACTICE WORKGROUP ESTABLISHED

- a. The executive sponsors of the VA national standard of practice initiative identify appropriate criteria for a VA health care occupation to develop the national standard of practice.
- b. For each identified VA occupation, the authorizing Assistant Under Secretary for Health establishes a workgroup to develop the VA national standard of practice. The Office of Governance, Regulations, Appeals, and Policy (GRAP) assigns a representative to assist with the process.

2. STEP 2: CONDUCT STATE VARIANCE ANALYSIS, INTERNAL STAKEHOLDER CONSULTATION, AND LISTENING SESSIONS

- a. The workgroup conducts research to identify practices that are not recognized by every state licensing, certification, or registration board yet enhance the practice and efficiency of the profession throughout the Veterans Health Administration (VHA).
- b. The workgroup consults with VA and VHA stakeholders, as appropriate. **NOTE:** A formal draft must not be shared with stakeholders at this step. VA and VHA stakeholders include but are not limited to:
 - (1) Workforce Management and Consulting for human resources policy.
- (2) VHA Office of Discovery, Education, and Affiliate Networks, if there are impacts or risks involving professional education and training standards.
- (3) Offices responsible for patient safety, facility accreditation and credentialing, and privileging, as appropriate.
- (4) Pharmacy Benefits Management Services if proposed standards involve medication administration, prescribing, or selection.
 - (5) The National Center for Ethics in Health Care.
- c. The workgroup may conduct listening sessions for external stakeholders, including members of the public, Congress, professional associations, and VA

employees, to obtain feedback on the variance between state practice acts and what should be included in the national standards of practice. **NOTE:** A formal draft must not be shared with stakeholders at this step.

3. STEP 3: DEVELOP DRAFT STANDARD AND ENGAGEMENT PLAN

- a. The workgroup drafts a proposed VA national standard of practice using best practices identified in state variance and stakeholder feedback.
- b. The workgroup develops an engagement plan including a summary of key internal consultations and any anticipated issues.

4. STEP 4: INTERNAL REVIEW AND DEPARTMENT OF DEFENSE CONSULTATION

- a. The workgroup, via GRAP, sends the draft national standard of practice and engagement plan to the Standards Internal Review Group (SIRG), which consists of representatives from: Quality Management; Chief of Staff (VA medical facility-level); Office of Academic Affiliations; Associate Director, Patient Care Services (VA medical facility-level); National Center for Ethics in Health Care; Workforce Management and Consulting; National Surgery Office; Credentialing and Privileging; Chief Medical Officer (VA medical facility-level); and Electronic Health Record Modernization.
- b. The workgroup, via GRAP, sends the draft national standard of practice and engagement plan to appropriate leadership of the office responsible for implementation of the new VA electronic health record system as an opportunity to flag any concerns with tasks and duties included in the draft national standard of practice that the system cannot support.
- c. The workgroup, via GRAP, sends the draft national standard of practice and engagement plan to liaisons within the Department of Defense (DoD) as a notification and opportunity to flag lack of alignment with DoD standards.

5. STEP 5: VHA SENIOR LEADER APPROVAL

The appropriate Assistant Under Secretary for Health for each health care occupation approves the draft national standard of practice and engagement plan.

6. STEP 6: INTERNAL AND EXTERNAL STAKEHOLDER ENGAGEMENT

Engagements in most cases will proceed sequentially as follows:

a. <u>VHA and VA Front Offices.</u> The workgroup, via GRAP, notifies VHA Chief of Staff that the draft national standard of practice is ready for engagement with stakeholders external to VA so that the VHA Chief of Staff can raise any issues to VA as needed.

- b. <u>Office of General Counsel.</u> The workgroup, via GRAP, sends the draft national standard of practice and engagement plan to the Office of General Counsel (OGC) to address any legal issues.
- c. <u>Unions</u>. The workgroup, via GRAP, engages VA unions informally on the draft national standard of practice. The intent is to collaborate with and receive input from union partners, consistent with the Secretary of VA and White House priorities for union engagement.
- d. <u>Congress.</u> The workgroup, via GRAP, sends the draft national standard of practice to Congress, through the VHA Office of Congressional and Legislative Affairs, for awareness and review.
- e. <u>State Boards and Other Registration and Certification Bodies.</u> The workgroup, via GRAP, notifies each pertinent state licensing board or registration or certifying body of the draft national standard of practice, and requests that the board or body identify any concerns over the draft national standard of practice and provides an opportunity for the entity to meet with VA and provide written feedback. Such notification should include any information known to the workgroup on deviations from that state or registration or certifying body's requirements or authorities.

f. Veterans, Professional Organizations, Employees, and the Public.

- (1) The draft national standard of practice is published as a notice on the Federal Register, which provides a 60-day period for the public, including professional associations, Veteran Service Organizations (VSOs), and unions, to comment on the draft. **NOTE:** This comment period is concurrent with the VA employee comment period.
- (2) The draft national standard of practice is published on a VA internal website to obtain comments from VA employees only. **NOTE:** This comment period is concurrent with the Federal Register comment period. The SharePoint site can be accessed here: https://dvagov.sharepoint.com/sites/VACOVHACOS/10B4/PIRP/SitePages/NationalStandardofPractice.aspx. This is an internal VA website that is not available to the public.
- (3) The workgroup may solicit comments from other professional organizations or associations separately.

7. STEP 7: REVISION AND FORMAL POLICY CONCURRENCE PROCESS

- a. Review Comments and Revise Draft. The workgroup reviews comments from all stakeholders, including Congressional, state licensing boards, public comments received from the Federal Register, and VA employees, and revises the draft, as appropriate.
- (1) Within a month after a proposed national standard of practice is closed for feedback, VA posts a Comment Count Report to the public website, which provides data on how many VA employees, individuals from the public, state licensing boards, professional associations, and certification or registration bodies (as applicable)

provided feedback on the proposed VA national standard of practice. **NOTE:** The Comment Count Report will be posted to the VA National Standards of Practice website at https://www.va.gov/standardsofpractice/.

- (2) VA then develops a Feedback Summary Report, which summarizes all the comments received, VA's responses, and any revisions made to the final national standard of practice written in VHA policy as a result of feedback received. **NOTE:** The Feedback Summary Report may take several months to compile and will be posted to the National Standards of Practice website at https://www.va.gov/standardsofpractice/.
- b. **Notify VHA Governance Board.** The workgroup, via GRAP, sends the draft national standard of practice to the VHA Governance Board, which includes VA Central Office and Veterans Integrated Service Network (VISN) Directors, for awareness before implementation.
 - c. **VHA Policy Concurrence Process.** GRAP manages the process to:
 - (1) Obtain all VHA senior leader concurrence.
 - (2) Obtain OGC concurrence as needed.
 - (3) Obtain Labor-Management Relations concurrence.
 - (4) Obtain final VHA senior leader approval.

8. STEP 8: PUBLISH NATIONAL STANDARD OF PRACTICE

- a. The national standard of practice for each occupation is published as an appendix to this directive. The directive is accessible on the VHA Publications websites at: https://www.va.gov/vhapublications/ (internal, not accessible to the public) and https://www.va.gov/vhapublications/ (external).
- b. This directive will be amended and updated as additional national standards of practice are published.

9. STEP 9: ENGAGE EMPLOYEES

- a. The publication date of each national standard of practice is listed in the applicable appendix. The effective date of each national standard of practice may differ from the publication date to allow for delayed implementation and further engagement of VA employees.
- b. Before the effective date, if there are any changes to practice, VA and VHA will engage employees within the occupation to provide guidance on how the changes will be implemented, including training and education requirements.

10. STEP 10: VA NATIONAL STANDARD OF PRACTICE IS EFFECTIVE

KINESIOTHERAPIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Kinesiotherapists provide acute, sub-acute or post-acute rehabilitative therapy, and wellness interventions. These interventions focus on therapeutic exercise, mobility, reconditioning, education and behavior change emphasizing the psychological as well as physical interventions to enhance outcomes for a holistic approach to rehabilitation. Kinesiotherapists are allied health professionals competent in the administration of scientifically based musculoskeletal, neurological, ergonomic, biomechanical, psychosocial, and task-specific functional tests and measures combined with other evidence-based modalities used to physically, physiologically, and psychologically improve human function, movement, and well-being.
- **2.** Kinesiotherapists in the Department of Veterans Affairs (VA) possess the education and registration required by VA qualification standards. See VA Handbook 5005, Staffing, Part II Appendix G21, dated July 16, 2020.
- **3.** VA Kinesiotherapists practice in accordance with the Board of Registration for Kinesiotherapists standards from Council on Professional Standards for Kinesiotherapy, available at: https://akta.org/. VA reviewed license, certification, and registration requirements for this occupation on March 2023 and confirmed that all Kinesiotherapists in VA follow this national registration.
- **4.** The National Physical Medicine & Rehabilitation Program Office within the Office of Patient Care Services is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: vhapmrsprogramofficehelp@va.gov. This appendix is scheduled for recertification on or before the last working day of September 2028.

/s/ M. Christopher Saslo DNS, ARNP-BC, FAANP Assistant Under Secretary for Health for Patient Care Services/CNO

OPHTHALMOLOGY TECHNICIAN NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Ophthalmology Technicians are eye health care professionals qualified to assist ophthalmologists and other licensed independent eye care practitioners in the diagnostic evaluation, management, treatment, and education of patients with medical and surgical conditions affecting the visual system. Their duties include documenting patient histories, assessing visual and ocular function, performing tests and ophthalmic imaging, administering topical ocular medications (i.e., drops or ointment, including anesthetic, dye, dilation, cycloplegic or antibiotics), and providing patient care.
- **2.** Ophthalmology Technicians in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G52, dated February 7, 2018.
- **3.** VA Ophthalmology Technicians practice in accordance with the Allied Ophthalmic Personnel Certification standards from the Joint Commission on Allied Health Personnel in Ophthalmology, available at: https://jcahpo.org/. VA reviewed certification requirements for this occupation in March 2023 and confirmed that all Ophthalmology Technicians in VA follow this national certification.
- **4.** The VHA Ophthalmology Service within the Office of Clinical Services is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: <a href="https://www.vhan.org/vhan

/s/ Erica M. Scavella MD, FACP, FACHE Assistant Under Secretary for Health for Clinical Services/CMO

CYTOTECHNOLOGIST APRIL 2, 2024

VHA DIRECTIVE 1900(5)
APPENDIX D

CYTOTECHNOLOGIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Cytotechnologists are certified laboratory professionals performing highly complex laboratory diagnostic testing on human specimens for diagnosis, treatment, or prevention of disease in the specialty of cytopathology. Cytotechnologists are responsible for reporting the microscopic interpretation of normal gynecological cytology smear tests used to detect cervical cancer; providing preliminary interpretation of specimens from other body sites; and collaborating with pathologists to diagnose benign and infectious processes, precancerous lesions, and malignant diseases.
- **2.** Cytotechnologists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G61, dated November 25, 2019.

NOTE: VA qualification standards for Cytotechnologists require either the Cytologist certification or Specialist in Cytology certification from the American Society for Clinical Pathology. This national standard of practice does not change the qualification standards. VA Cytotechnologists can hold either of the certifications.

- **3.** VA Cytotechnologists practice in accordance with the Cytologist or Specialist in Cytology standards from the American Society for Clinical Pathology, available at: https://www.ascp.org/. VA reviewed certification requirements for this occupation in March 2022 and confirmed that all Cytotechnologists in VA follow these national certifications.
- **4.** Although VA only requires one of the American Society for Clinical Pathology certifications, the following nine states require a state license in order to practice as a Cytotechnologist in that state: California, Florida, Hawaii, Louisiana, Montana, Nevada, New York, Tennessee, and West Virginia.

Of those, six states exempt Federal employees from their state license requirements: Florida, Louisiana, Montana, New York, Tennessee, and West Virginia.

VA reviewed state laws, state practice acts, and certification requirements for Cytotechnologists in December 2023 and did not identify any conflicts that impact practice of this profession in VA.

5. The Pathology and Laboratory Medicine Program Office within the Office of Diagnostic Services is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: <a href="https://www.vhanton.org/whatton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whanton.org/whatton.org/whanton.org/whatton.org/whanton.org/whatto

/s/ Erica M. Scavella MD, FACP, FACHE Assistant Under Secretary for Health for Clinical Services and Chief Medical Officer

HISTOPATHOLOGY TECHNOLOGIST APRIL 2, 2024

VHA DIRECTIVE 1900(5)
APPENDIX E

HISTOPATHOLOGY TECHNOLOGIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Histopathology Technologists are highly skilled medical laboratory professionals who are responsible for the preanalytical processing of human tissue and body fluid specimens. Through utilization of a broad range of specialized techniques and procedures, both manual and automated, Histopathology Technologists preserve and prepare specimens for pathologist review, interpretation, evaluation, and diagnosis of patient conditions or disease.
- **2.** Histopathology Technologists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G65, dated November 25, 2019.
- **3.** VA Histopathology Technologists practice in accordance with the Histotechnologist certification standards from the American Society for Clinical Pathology (ASCP), available at: https://www.ascp.org/. VA reviewed certification requirements for this occupation in March 2022 and confirmed that all Histopathology Technologists in VA follow this national certification.
- **4.** Although VA only requires ASCP certification, eight states require a state license in order to practice as a Histopathology Technologist in that state: Florida, Louisiana, Montana, Nevada, New York, Puerto Rico, Tennessee, and West Virginia.

Of those, six states exempt Federal employees from their state license requirements: Florida, Louisiana, Montana, New York, Tennessee, and West Virginia.

VA reviewed state laws, state practice acts, and certification requirements for Histopathology Technologists in December 2023 and did not identify any conflicts that impact practice of this profession in VA.

5. The Pathology and Laboratory Medicine Program Office within the Office of Diagnostic Services is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: WHAPLMSProgramOffice@va.gov. This appendix is scheduled for recertification on or before the last working day of April 2029.

/s/ Erica M. Scavella MD, FACP, FACHE Assistant Under Secretary for Health for Clinical Services and Chief Medical Officer

VHA DIRECTIVE 1900(5) APPENDIX E

August 30, 2023

THERAPEUTIC MEDICAL PHYSICIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Therapeutic Medical Physicists assure the safe and effective use of radiation in radiation oncology. Therapeutic Medical Physicists perform or oversee the scientific and technical aspects of radiotherapy procedures necessary to achieve this objective. In the clinical setting, this involves the use of ionizing or nonionizing radiation in the planning and delivery of radiotherapy treatments. Therapeutic Medical Physicists collaborate with radiation oncologists and monitor equipment to ensure each patient's safety.
- **2.** Therapeutic Medical Physicists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G48, dated July 8, 2015.

NOTE: VA qualification standards for Therapeutic Medical Physicists require a certification from either the American Board of Radiology, the American Board of Medical Physics, or the Canadian College of Physicists in Medicine. This national standard of practice does not change the qualification standards. VA Therapeutic Medical Physicists can hold any one of the three certifications.

- **3.** VA Therapeutic Medical Physicists practice according to the Medical Physics Practice Guidelines standards from the American Association of Physicists in Medicine, available at: https://www.aapm.org/. VA reviewed certification requirements for this occupation in December 2023 and confirmed that the American Board of Radiology, the American Board of Medical Physics, and the Canadian College of Physicists in Medicine practice consistent with the Medical Physics Practice Guidelines from the American Association of Physicists in Medicine.
- **4.** Although VA only requires a certification, four states require a state license in order to practice as a Therapeutic Medical Physicist in that state: Hawaii, Florida, New York, and Texas.

VA reviewed state laws, state practice acts, and certification requirements for Therapeutic Medical Physicists in February 2022 and did not identify any conflicts that impact practice of this profession in VA.

5. The National Radiation Oncology Program within the Office of Clinical Services is responsible for the content of this appendix. Questions about this national standard of practice may be referred to vhamedphys@med.va.gov. This appendix is scheduled for recertification on or before the last working day of April 2029.

VHA DIRECTIVE 1900(5) APPENDIX F

/s/ Erica M. Scavella MD, FACP, FACHE Assistant Under Secretary for Health for Clinical Services and Chief Medical Officer

August 30, 2023

ORTHOTIST, PROSTHETIST, AND PROSTHETIST-ORTHOTIST APRIL 2, 2024

VHA DIRECTIVE 1900(5)
APPENDIX G

ORTHOTIST, PROSTHETIST, AND PROSTHETIST-ORTHOTIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Orthotists, Prosthetists, and Prosthetist-Orthotists are health care professionals who are specifically educated and trained to manage comprehensive orthotic or prosthetic patient care. This includes patient evaluation, formulation of a treatment plan, implementation of the treatment plan, continuation of the treatment plan, and practice management. Documentation by the Orthotist, Prosthetist, and Prosthetist-Orthotist is part of the patient's medical record and assists with establishing medical necessity for orthotic and prosthetic care.
- **2.** Orthotists, Prosthetists, and Prosthetist-Orthotists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G32, dated March 21, 2017.

NOTE: VA qualification standards for Orthotists, Prosthetists, and Prosthetist-Orthotists require a certification from either the American Board for Certification in Orthotics and Prosthetics or the Board of Certification/Accreditation. This national standard of practice does not change the qualification standards. VA Orthotists, Prosthetists, and Prosthetist-Orthotists can hold either certification.

NOTE: This national standard of practice does not apply to Orthotists, Prosthetists, and Prosthetist-Orthotists who are grandfathered according to the VA qualification standards as of March 21, 2017, the effective date for the qualification standards for Orthotists, Prosthetists, and Prosthetist-Orthotists. See Veterans Health Administration (VHA) Directive 1936(1), Accreditation of VA Orthotic, Prosthetic and Pedorthic Facilities and Personnel Credentialing, dated September 16, 2019, for more information.

- **3.** VA Orthotists, Prosthetists, and Prosthetist-Orthotists practice according to the Orthotist and Prosthetist standards from the American Board for Certification, available at: https://www.abcop.org/. VA reviewed certification requirements for this occupation in December 2023 and confirmed there is no variance between the tasks and duties authorized from the American Board of Certification and the Board of Certification/Accreditation; therefore, all Orthotists, Prosthetists, and Prosthetist-Orthotists in VA practice consistent with the American Board of Certification standards.
- **4.** Although VA only requires a certification, 15 states require a state license in order to practice as an Orthotist, Prosthetist, and Prosthetist-Orthotist in that state: Alabama, Arkansas, Florida, Georgia, Illinois, Iowa, Kentucky, Minnesota, New Jersey, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, and Washington.

All 15 states exempt Federal employees from their state license requirements.

August 30, 2023

VA reviewed state laws, state practice acts, and certification requirements for Orthotists, Prosthetists, and Prosthetist-Orthotists in June 2023 and did not identify any conflicts that impact practice of this profession in VA.

5. The Office of Orthotic, Prosthetic and Pedorthic Clinical Services within the Office of Patient Care Services is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: <a href="https://www.ve.en.org/

/s/ M. Christopher Saslo DNS, ARNP-BC, FAANP Assistant Under Secretary for Health for Patient Care Services/CNO

ART THERAPIST JUNE 27, 2024

VHA DIRECTIVE 1900(5)
APPENDIX H

ART THERAPIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Art Therapists integrate psychotherapeutic principles and art interventions to evaluate, diagnose, and treat individuals with various clinical mental health and rehabilitation clinical issues that impact their health, function, and quality of life. Art Therapists use art-making and the creative process to improve cognitive and sensorimotor functions, foster self-esteem and emotional resilience, promote insight, enhance social skills, and reduce and resolve conflicts and distress in order to ameliorate biopsychosocial conditions.
- **2.** Art Therapists in the Department of Veterans Affairs (VA) possess the education and registration required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G60, dated June 7, 2019.
- **3.** VA Art Therapists practice in accordance with the Ethical Principles for Art Therapists from the American Art Therapy Association (AATA), available at: https://arttherapy.org/. VA reviewed registration requirements for this occupation in December 2023 and confirmed that all Art Therapists in VA follow the AATA standards.
- **4.** Although VA only requires a registration, 15 states require a state license in order to practice as an Art Therapist in that state: Connecticut, Delaware, District of Columbia, Kentucky, Maryland, Mississippi, New Jersey, New Mexico, New York, Ohio (see note below), Oregon, Pennsylvania, Tennessee, Texas, and Virginia.

Of those, one state exempts Federal employees from their state license requirements: Virginia.

VA reviewed state laws, state practice acts, and registration requirements for Art Therapists in December 2023 and did not identify any conflicts that impact practice of this profession in VA.

NOTE: Pursuant to Ohio Revised Code Sec. 4757.24, beginning on July 4, 2024, Ohio must issue state licenses for Art Therapists practicing art therapy in Ohio. As of December 20, 2023, Ohio has not determined a date of issuance for art therapy licenses.

/s/ M. Christopher Saslo DNS, ARNP-BC, FAANP Assistant Under Secretary for Health for Patient Care Services/CNO

DANCE/MOVEMENT THERAPIST JUNE 27, 2024

VHA DIRECTIVE 1900(5)
APPENDIX I

DANCE/MOVEMENT THERAPIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Dance/Movement Therapists use psychotherapeutic movement to promote emotional, social, cognitive, spiritual, and physical integration of the individual, for the purpose of improving health and well-being. Dance/Movement Therapists observe and assess the individual's movements, using verbal and nonverbal communication to create and implement interventions that will address the emotional, social, physical, and cognitive integration of that individual.
- **2.** Dance/Movement Therapists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G60, dated June 7, 2019.
- **3.** VA Dance/Movement Therapists practice in accordance with the Code of Ethics and the Standards of the American Dance Therapy Association and Dance/Movement Therapy Certification Board, available at: https://www.adta.org/dmtcb. VA reviewed certification requirements for this occupation in June 2023 and confirmed that all Dance/Movement Therapists in VA follow this national certification.
- **4.** Although VA only requires a certification, one state requires a state license in order to practice as a Dance/Movement Therapist in that state: New York.

VA reviewed state laws, state practice acts, and certification requirements for Dance/Movement Therapists in June 2023 and did not identify any conflicts that impact practice of this profession in VA.

> /s/ M. Christopher Saslo DNS, ARNP-BC, FAANP Assistant Under Secretary for Health for Patient Care Services/CNO

DRAMA THERAPIST JUNE 27, 2024

VHA DIRECTIVE 1900(5)
APPENDIX J

DRAMA THERAPIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Drama Therapists use an active, experiential approach to facilitate social, emotional, and cognitive change. Through storytelling, projective play, purposeful improvisation, and performance, Drama Therapists invite participants to rehearse desired behaviors, practice being in a relationship, expand and find flexibility between life roles, and perform personal and social change.
- **2.** Drama Therapists in the Department of Veterans Affairs (VA) possess the education and registration required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G60, dated June 7, 2019.
- 3. VA Drama Therapists practice in accordance with the Registered Drama Therapists standards from the North American Drama Therapy Association, available at: https://www.nadta.org/. VA reviewed registration requirements for this occupation in June 2023 and confirmed that all Drama Therapists in VA follow this national registration.
- **4.** Although VA requires a registration, one state requires a state license in order to practice as a Drama Therapist in that state: New York.

VA reviewed state laws, state practice acts, and registration requirements for Drama Therapists in June 2023 and did not identify any conflicts that impact practice of this profession in VA.

5. The Office of Recreation Therapy and Creative Arts Therapy Service is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: VHARecreationTherapyFieldAdvisoryBoard@va.gov. This appendix is scheduled for recertification on or before the last working day of June 2029.

/s/ M. Christopher Saslo DNS, ARNP-BC, FAANP Assistant Under Secretary for Health for Patient Care Services/CNO

MUSIC THERAPIST JUNE 27, 2024

VHA DIRECTIVE 1900(5)
APPENDIX K

MUSIC THERAPIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Music Therapists use an evidence-based clinical practice that uses music and music techniques to target group and individualized goals across the clinical domains. Music interventions can target many goals including enhancement of cognitive processing (e.g., neuroconnectivity, memory, retention), sensory integration, fine and gross motor movement (e.g., initiation, sustaining, inhibiting), communication, and support for mental and emotional well-being and recovery.
- **2.** Music Therapists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G60, dated June 7, 2019.
- **3.** VA Music Therapists practice in accordance with the Standards of Clinical Practice from the American Music Therapy Association (AMTA) and the Scope of Music Therapy Practice developed jointly by the Certification Board for Music Therapists (CBMT) and AMTA, available at: https://www.musictherapy.org/. VA reviewed certification requirements for this occupation in December 2023 and confirmed that all Music Therapists in VA follow the AMTA and CBMT standards.
- **4.** Although VA only requires a certification, 12 states require a state license in order to practice as a Music Therapist in that state: Georgia, Maryland, Nevada, New Jersey (see note below), New York, North Dakota, Ohio (see note below), Oklahoma, Oregon, Rhode Island, Utah, and Virginia.

Of those, three states exempt Federal employees from their state license requirements: Maryland, Nevada, and Oklahoma.

VA reviewed state laws, state practice acts, and certification requirements for Music Therapists in December 2023 and did not identify any conflicts that impact practice of this profession in VA.

NOTE: Pursuant to New Jersey Statue 45:8B-90.5, beginning on July 19, 2020, New Jersey must issue state licenses for Music Therapists practicing music therapy in New Jersey. As of December 20, 2023, New Jersey has not determined a date of issuance for music therapy licenses. Pursuant to Ohio Revised Code Sec. 4757.24, beginning on July 4, 2024, Ohio must issue state licenses for Music Therapists practicing music therapy in Ohio. As of December 20, 2023, Ohio has not determined a date of issuance for art therapy licenses.

5. The Office of Recreation Therapy and Creative Arts Therapy Service is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: VHARecreationTherapyFieldAdvisoryBoard@va.gov. This appendix is scheduled for recertification on or before the last working day of June 2029.

/s/ M. Christopher Saslo DNS, ARNP-BC, FAANP Assistant Under Secretary for Health for Patient Care Services/CNO

August 30, 2023

RECREATION THERAPIST JUNE 27, 2024

VHA DIRECTIVE 1900(5)
APPENDIX L

RECREATION THERAPIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Recreation Therapists systematically use recreation and therapeutic interventions for the specific purpose of improving the physical, social, emotional, cognitive, and spiritual functioning of individuals; enhancing well-being; and enabling greater quality of life through recreation participation for individuals with injury, illness, or disability. Recreation Therapists utilize treatment interventions, leisure education, and recreation experiences to improve functional outcomes, foster recovery, enhance health and wellness, promote the development of a healthy leisure lifestyle, and increase independence in activities of choice through activity modification, adaptation, and facilitation.
- **2.** Recreation Therapists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G60, dated June 7, 2019.
- **3.** VA Recreation Therapists practice in accordance with the Standards of Practice for Recreational Therapy from the American Therapeutic Recreation Association (ATRA), available at: https://www.atra-online.com/. VA reviewed certification requirements for this occupation in December 2023 and confirmed that all Recreation Therapists in VA follow the ATRA standards.
- **4.** Although VA only requires a certification, five states require a state license in order to practice as a Recreation Therapist in that state: New Hampshire, New Jersey (see note below), North Carolina, Oklahoma, and Utah.

Of those, one state exempts Federal employees from their state license requirements: Oklahoma.

VA reviewed state laws, state practice acts, and certification requirements for Recreation Therapists in December 2023 and did not identify any conflicts that impact practice of this profession in VA.

NOTE: Pursuant to New Jersey 45:8B-108, beginning on July 19, 2020, New Jersey must issue state licenses for Recreation Therapists practicing recreation therapy in New Jersey. As of December 20, 2023, New Jersey has not determined a date of issuance for recreation therapy licenses.

5. The Office of Recreation Therapy and Creative Arts Therapy Service is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: VHARecreationTherapyFieldAdvisoryBoard@va.gov. This appendix is scheduled for recertification on or before the last working day of June 2029.

/s/ M. Christopher Saslo DNS, ARNP-BC, FAANP Assistant Under Secretary for Health for Patient Care Services/CNO

REGISTERED DIETITIAN NUTRITIONIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Registered Dietitian Nutritionists are experts in the disciplines of nutrition and food. They translate the complex science of nutrition into healthy, real-world solutions. Registered Dietitian Nutritionists within the Department of Veterans Affairs (VA) are fully integrated into a health care team and work within a variety of settings including inpatient, outpatient, long term care, food operations, and community clinics. Clinical Registered Dietitian Nutritionists are responsible for utilizing the nutrition care process framework to provide patient-centered care using evidence-based guidelines to make decisions. Registered Dietitian Nutritionists in the food service setting are responsible for scientific preparation and service of high-quality food by selection, requisition, receipt, storage, issuance, and transportation of food and supplies. They assure sanitation, safety, competency, and training programs are robust and effective.
- **2.** Registered Dietitian Nutritionists in VA possess the education and registration required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G20, dated October 14, 2022.
- **3.** VA Registered Dietitian Nutritionists practice in accordance with the Registered Dietitian Nutritionist Scope and Standards of Practice from the Academy of Nutrition and Dietetics, available at: www.cdrnet.org/. VA reviewed registration requirements for this occupation in January 2024 and confirmed that all Registered Dietitian Nutritionists in VA follow this national registration.
- **4.** Although VA only requires a registration, 46 states either require or offer a state license or certification in order to practice as a Registered Dietitian Nutritionist in that state: Alabama, Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, West Virginia, Wisconsin, and Wyoming.

Of those, 33 states exempt Federal employees from their state license or certification requirements: Alabama, Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Guam, Hawaii, Illinois, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Minnesota, Mississippi, Montana, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, Ohio, Oklahoma, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Wisconsin, and Wyoming.

VA reviewed state laws, state practice acts, registration requirements, and certification requirements for Registered Dietitian Nutritionists in January 2024 and did not identify any conflicts that impact practice of this profession in VA.

5. The Office of Nutrition and Food Services is responsible for the content of this appendix. Questions about this national standard of practice may be referred to: dietitianNSP@va.gov. This appendix is scheduled for recertification on or before the last working day of July 2029.

/s/ Erica M. Scavella MD, FACP, FACHE Assistant Under Secretary for Health for Clinical Services and Chief Medical Officer

BLIND REHABILITATION SPECIALIST JULY 10, 2024

VHA DIRECTIVE 1900(5)
APPENDIX N

BLIND REHABILITATION SPECIALIST NATIONAL STANDARD OF PRACTICE

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

- 1. Blind Rehabilitation Specialists use assessments, therapies, and technologies to improve the independent function, quality of life, and adjustment to vision loss for those who are blind or visually impaired. Blind Rehabilitation Specialists conduct evaluations through interviews, tests, and measurements and use such findings either individually or as a part of an interdisciplinary team to develop and implement blind and vision rehabilitation programs. Instructional activities are directed toward achieving therapeutic objectives for those who are blind or visually impaired. These objectives include effective communication and visual skills, instruction on optical low vision devices, orientation to and management of the environment, safe ambulation and travel, access to information through the use of assistive technologies, manual skills, proficiency and understanding in activities of daily living, pursuit of avocational and vocational skills, and education and adjustment to visual impairment.
- **2.** Blind Rehabilitation Specialists in the Department of Veterans Affairs (VA) possess the education and certification required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G41, dated March 13, 2019.

NOTE: VA qualification standards for Blind Rehabilitation Specialists require one of the following: (1) one of four certifications from the Academy for Certification of Vision Rehabilitation and Education Professionals: Certified Low Vision Therapist (CLVT), Certified Orientation and Mobility Specialist (COMS), Certified Assistive Technology Instructional Specialist for People with Visual Impairments (CATIS), and Certified Vision Rehabilitation Therapist (CVRT); or (2) an equivalent, closely related professional credential in special education or rehabilitation. VA Blind Rehabilitation Specialists can hold any of the foregoing certifications or credentials. This national standard of practice does not change the qualification standards.

- 3. VA Blind Rehabilitation Specialists practice in accordance with the Academy for Certification of Vision Rehabilitation and Education Professionals standards available at: www.acvrep.org, and in accordance with Veterans Health Administration (VHA)

 Directive 1174(1), Blind and Visual Impairment Rehabilitation Continuum of Care, dated April 19, 2021. VA reviewed certification requirements for this occupation in December 2023 and confirmed that all Blind Rehabilitation Specialists in VA follow the Academy for Certification of Vision Rehabilitation and Education Professionals standards and VHA Directive 1174(1). More information about Blind Rehabilitation practice and competency-based training and cross-training for Blind Rehabilitation Specialists can be found in VHA Directive 1174(1).
- **4.** The Office of Rehabilitation and Prosthetics Services within the Office of Patient Care Services is responsible for the content of this appendix. Questions about this national

standard of practice may be referred to: <u>VHABRRegionalConsultants@va.gov</u>. This appendix is scheduled for recertification on or before the last working day of July 2029.

VISUAL IMPAIRMENT SERVICES TEAM COORDINATOR NATIONAL STANDARD OF PRACTICE

- **1.** Visual Impairment Services Team Coordinators provide adjustment counseling, coordinate services, ensure Veterans receive adequate compensation and benefits for which they are eligible, and conduct complex negotiations for benefits and services for Veterans who are blind or visually impaired.
- **2.** VA Visual Impairment Services Team Coordinators must possess the education, license, or certification required by in VA Handbook 5005, Staffing, Part II, Appendix G41, dated March 13, 2019.

NOTE: VA qualification standards for Visual Impairment Services Team Coordinators require one of the following: (1) one of four certifications from the Academy for Certification of Vision Rehabilitation and Education Professionals: Certified Low Vision Therapist (CLVT), Certified Orientation and Mobility Specialist (COMS), Certified Assistive Technology Instructional Specialist for People with Visual Impairments (CATIS), and Certified Vision Rehabilitation Therapist (CVRT); (2) a license or certification by a state to independently practice social work at the master's degree level; (3) a certification via the Commission on Rehabilitation Counselor Certification, Certified Rehabilitation Counselor; or (4) a license or certification by a state to independently practice in other health care occupations. VA Visual Impairment Services Team Coordinators can hold any of the foregoing certifications or licenses. This national standard of practice does not change the qualification standards.

- 3. VA Visual Impairment Services Team Coordinators practice in accordance with their license or certification and in accordance with VHA Directive 1174(1), Blind and Visual Impairment Rehabilitation Continuum of Care, dated April 19, 2021. Visual Impairment Services Team Coordinators who are employed as Blind Rehabilitation Specialists, Social Workers, Certified Rehabilitation Counselors, or in other health care occupations must follow VA's national standard of practice for that specific occupation and VHA Directive 1174(1). More information about Blind Rehabilitation practice and competency-based training and cross-training for Visual Impairment Services Team Coordinators can be found in VHA Directive 1174(1).

BLIND REHABILITATION OUTPATIENT SPECIALIST NATIONAL STANDARD OF PRACTICE

- 1. Blind Rehabilitation Outpatient Specialists provide those who are blind or visually impaired with inpatient and outpatient services, including orientation and mobility, communication and daily living, low vision therapy, technology and computer access, and manual skills. Blind Rehabilitation Outpatient Specialists apply their knowledge of the concepts, principles, and practices of blind and vision rehabilitation, and the use of assessments, therapies, and technology to improve the independent function, quality of life, and adjustment to vision loss for patients who are blind or visually impaired. Blind Rehabilitation Outpatient Specialists typically manage their own caseload.
- **2.** Blind Rehabilitation Outpatient Specialists in VA possess the education and certification(s) from the Academy for Certification of Vision Rehabilitation & Education Professionals required by VA qualification standards. See VA Handbook 5005, Staffing, Part II, Appendix G42, dated May 14, 2019.

NOTE: VA qualification standards for Blind Rehabilitation Outpatient Specialists require at least one of the following certifications from the Academy for Certification of Vision Rehabilitation and Education Professionals: Certified Low Vision Therapist (CLVT), Certified Orientation and Mobility Specialist (COMS), Certified Assistive Technology Instructional Specialist for People with Visual Impairments (CATIS), or Certified Vision Rehabilitation Therapist (CVRT). VA Blind Rehabilitation Outpatient Specialists can hold any of the foregoing certifications. Specific General Schedule levels may require a different number of certifications. This national standard of practice does not change the qualification standards.

- 3. VA Blind Rehabilitation Outpatient Specialists practice in accordance with the Academy for Certification of Vision Rehabilitation and Education Professionals standards available at: www.acvrep.org, and in accordance with Veterans Health Administration (VHA) Directive 1174(1), Blind and Visual Impairment Rehabilitation Continuum of Care, dated April 19, 2021. VA reviewed certification requirements for this occupation in December 2023 and confirmed that all Blind Rehabilitation Outpatient Specialists in VA follow the Academy for Certification of Vision Rehabilitation and Education Professionals standards and VHA Directive 1174(1). More information about Blind Rehabilitation practice and competency-based training and cross-training for Blind Rehabilitation Outpatient Specialists can be found in VHA Directive 1174(1).
