*Veterans who are homeless or at imminent risk of homelessness are strongly encouraged to contact the [National Call Center for Homeless Veterans](#) at (877) 4AID-VET (877-424-3838) for assistance. To minimize the risk of contracting or spreading COVID-19, only Veterans who do not have access to a phone are to visit their closest VA medical center without calling in advance.*

### Message from Monica Diaz, Executive Director, VHA Homeless Programs Office

The Centers for Disease Control and Prevention instituted a [new, limited moratorium](#) that halts evictions for people who live in counties with substantial or high levels of community transmission of the coronavirus. Although these renter protections cover communities across the country, millions of Americans, including Veterans, are still at risk of a housing crisis. To ensure that Veterans and their families remain safely housed during the coronavirus pandemic and beyond, the [VHA Homeless Programs Office](#) (HPO) continues to work closely with community partners to identify Veterans experiencing housing crises and connect them with appropriate VA and non-VA resources. VA's goal remains ensuring that every Veteran and Veteran family has a stable place to call home.

## Around HPO

### [New Eviction Moratorium through October 3, 2021](#)

On August 3, the Centers for Disease Control and Prevention (CDC) announced a [limited eviction moratorium](#) for renters living in communities where there is [substantial or high transmission](#) of COVID-19, covering an estimated 80 percent of all U.S. counties and 90 percent of all renters. Covered renters are protected for up to two months, from August 3 through October 3.

### [Veterans have options as foreclosure, evictions bans set to expire](#)

Despite the bans on evictions, many Americans, including Veterans, across the country still need assistance to remain in their homes and pay for utilities and other housing-related services. The VA has set up a webpage detailing several resources and services available for Veterans who are at an increased risk of eviction due to the limitations of the temporary renter protections.
